## National funding formula: Impact of the schools national funding formula - WNC schools

Baseline funding Notional NFF funding in 2024-25

- Unconventional cells are denoted in bold, with the following meanings:

  We are unable to calculate a meaningful percentage change in pupil-led funding for some very small schools as their pupil-led funding makes up an extremely small proportion of their total funding, and is more [i] likely to be distorted by changes in school-led funding.
- We are not illustrating percentage changes for schools that are new, amalgamated or split because they either do not have a baseline or their baseline is no longer appropriate because their school structure has changed.
- Notional per pupil funding has been adjusted for two schools with negative premises adjustments to ensure they reach the minimum per pupil funding levels.

The note numbers succeeding column headers in row 8 correspond to full explanations found in the "Notes" sheet
