### 2. Previous Meeting/Action plan review - 4.35pm

Due to lower numbers we will review the action plan in the New Year ahead of February's Induction session.

### 3. Planning Policy - 4.45pm

Colin and Amanda attended to hear from young people about the plans for West Northants and the Local Plan which sets out a vision and framework for the development of an area. How we can meet the need for new jobs, new homes whilst also developing the infrastructure needed such as health, road and transport, parks etc whilst also protecting the environment.

Local plans have to be produced by Law and last a minimum of 15 years. First plan under West Northants Council (up to 2041) and will replace all the previous plans. Vision focused on 3 areas: Economy, Society (People), Environment.

Planners asked about where they go to school/hobbies and what they like/don't like about those spaces.

Quiet spaces – reducing distractions – is positive. Busy traffic areas is a concern particularly around school where there may be insufficient crossing areas/poor infrastructure.

Modes of transport included walking, public transport and also car. Cost and safety on buses can be an issue. Drapery as a change is very congested.

Where would you like to live and why? Somewhere you've been that you'd love to live...

Somewhere with speed limits and better infrastructure outside schools. Skye mentioned Leeds/Manchester. Bella talked about York and buskers making the area more entertaining (no license needed) as a musician herself this was a real positive, Leeds has piano's in the town. Tracy mentioned Cambridge being green and bike friendly, Oxford was mentioned similarly. Discussed the waterways links and using these.

Forum asked could you see yourself cycling to work in future? Some could depending on the job and how much stuff you needed to carry.

Stay or leave? Everyone was interested in moving away in future. Not enough 'stuff', and opportunities. Shopping – going to MK and Rushden Lakes. House prices not proportionate to the current offer. Discussed moving back in later years or the option to live here but commute to London for the lifestyle.

Closed shops/empty units bring down the look of an area. The young people use the town for socialising as well as shopping. When there is no activity people are bored and get into trouble or cause trouble in areas.

The perspective that young people are intimidating/unsafe in groups makes it difficult to find suitable spaces to spend time together as young people and have fun.

Actions:

- The slides will be shared to the group with minutes so that those unable to make the meeting can also feed back - **Aimee**
- Amanda and Colin to get back in touch when the consultation is live to gather further input from young people.

#### 4. **Holocaust Memorial Day statements - 5.30pm**

Young people at the meeting filmed their statements for Holocaust Memorial Day. Remaining statements to be filmed in January.
