Appendix A – ACCESS Annual Report

Chairperson's Foreword

I am pleased to present the Annual Report and Statement of Accounts for the Northamptonshire Pension Fund's financial year 2022-23. Our devoted team has worked tirelessly to manage and maintain the highest standards for our scheme members, employers, and other stakeholders.

Our scheme membership has grown substantially, now including over 80,000 active, pensioner, and deferred members. This expansion shows the importance of the benefits provided by the Fund to scheme members.

This year, we conducted a comprehensive valuation of the Fund, a triennial task aimed at ensuring financial sufficiency to meet pension commitments. This project involves several activities, such as data collection, employer engagement, risk management, and policy assessments. Notably, we introduced a "funding corridor" within our cessation policy, which effectively reduces sensitivity to market fluctuations upon employer exit, thus enhancing stability. We have also taken measures to reduce the impact of Government bonds on valuation calculations.

At the 2022 valuation, the Fund's funding level was 113%. To reduce the risks faced by the Fund, we have made the following changes to the funds' strategic asset allocation:

- Reduced equity allocations by 12.5%
- Increased fixed income by 10% and alternatives by 2.5% to provide greater exposure to inflation linked, cashflow generative assets while protecting the strong funding position.
- Expanded private markets portfolio to consider sustainable and impact opportunities

We have made significant progress in reinforcing our responsible investment (RI) policy, part of our overarching investment strategy. Our RI policy outlines our approach to sustainable responsible investment, with a dedicated commitment to prudently manage carbon and climate risks

influencing our investment decisions.

As part of our commitment to sustainability, we have embraced an ambitious decarbonisation pathway for our investment portfolio. Our goal is to achieve net zero carbon emissions by 2050 while ensuring the Fund's capacity to honour its benefit obligations remains resolute.

The year began with market volatility due to the Russian invasion of Ukraine, which led to raised inflation and uncertainties. Despite these challenges, the fund's investment return for the year was -4.8%, leading to a decrease in net assets from £3,368 billion in the prior year to £3,250 billion.

Our active participation in the ACCESS pool is a reflection of our commitment, with a significant 74% of our assets pooled as of 31 March 2023, and additional assets scheduled for future transition.

I extend my sincere appreciation to the Pension Committee, the Investment Sub-Committee, the members of the Local Pension Board, the Chief Finance Officer, the Head of Pensions, and the entire dedicated workforce for administering and managing the Northamptonshire Pension Fund.

In conclusion, we remain committed to excellence, transparency, and responsible stewardship. We will continue to provide exceptional service and secure the financial future of our esteemed scheme members.

Yours faithfully,

Councillor Malcolm Longley

Chair of the Northamptonshire Pension Fund Committee

Statement of Responsibilities

Introduction

This Annual Report and Statement of Accounts sets out the arrangements by which the Local Government Pension Scheme operates, reports changes which have taken place and reviews the investment activity and performance of the Northamptonshire Pension Fund ("Fund") during the year.

The Statement of Accounts has been prepared in accordance with the CIPFA/LASAAC Code of Practice for Local Authority Accounting in the United Kingdom 2022-23.

The accounts summarise the transactions of the Fund and deal with the net assets at the disposal of the Pension Committee members. The accounts do not take account of the obligation to pay future benefits which fall due after year end. The actuarial position of the Fund which takes into account these obligations is available on the Fund's website, [2022 Valuation Report](#)

The Council's Responsibilities in respect of the Pension Fund

The West Northamptonshire Council is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Council that officer is the Chief Finance Officer;
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets; and
- Approve the Statement of Accounts which form part of the Council's Statement of Accounts.

The Chief Finance Officer's Responsibilities

The Chief Finance Officer is responsible for the preparation of the Council's statement of accounts in accordance with proper practices as set out in the *CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code)*.

In preparing this statement of accounts, the Chief Finance Officer has:

- Selected suitable accounting policies and then applied them consistently;
- Made judgments and estimates that were reasonable and prudent; and
- Complied with the Code.

The Chief Finance Officer has also:

- Kept proper accounting records which are up to date; and
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.

Certificate of Accounts

I certify that this Statement of Accounts presents a true and fair view of the financial position of the Pension Fund at 31 March 2023 and of its income and expenditure for the year 2022-23, and authorise the accounts for issue.

XXXXX

Chief Finance Officer

(Section 151 Officer)

Dated: xxxxxxx

Scheme Administration

Introduction

West Northamptonshire Council is responsible for administering the Northamptonshire Pension Fund, which is available to employees of the Council, organisations with a statutory right to be in the scheme (scheduled bodies) and organisations, such as charities, which the Council has admitted under its discretionary powers (admitted bodies). As well as organisations that can admit their employees to the LGPS by passing their resolution (nominate employees for access to the LGPS).

The Fund is a qualifying scheme under the automatic enrolment regulations and can be used by employers to automatically enroll eligible employees, and every three years re-enrol anyone who opts out of the scheme.

A shared service partnership between West Northamptonshire Council and Cambridgeshire County Council provides pension administration services to the Northamptonshire Pension Fund.

Membership

Membership of the Fund increased by 5.5% from the previous year.

On 31 March 2023 there were 23,949 active, 38,361 deferred and 18,414 pensioner members in the Fund. The deferred figure is inclusive of 10,509 open cases that may change status (undecided leavers).

Pension Fund Administration

There are 83 staff members (79.05 full time equivalent) within the Pensions Team, providing all aspects of service to both the Northamptonshire and Cambridgeshire Funds, with an average staff to member ratio of 1:2,250 (total members for Northamptonshire and Cambridgeshire Pension Funds divided by full time equivalent staff members).

Internal audit perform risk based audit procedures to assess the effectiveness and efficiency of administration services.

The requirements of the General Data Protection Regulations (GDPR) are recognised and feature in the design of the Fund's administration processes. The Fund has in place a GDPR compliant privacy notice, conducts privacy impact assessments for all new activities involving personal data and has in place a Register of Processing Activities and Information Asset Register.

Unitary Authority

On the 1st April 2021 Northamptonshire County Council ceased and was replaced by two unitary authorities West Northamptonshire and North Northamptonshire. West Northamptonshire Council has become the administering authority for the Northamptonshire Pension Fund.

Scheme Administration Tools

The Pensions website contains detailed information for all the Fund's stakeholders and has dedicated pages for both members and employers. There is a comprehensive suite of forms and factsheets for members, prospective members and employers.

Support for members and employers can be accessed via the website or by contacting the Helpline on 01604 366537.

[Member Self Service](#) is an online platform which allows members to securely access their records, amend their personal information, perform benefit projections and view their annual benefits statement.

i-Connect is a system used which allows employers to securely upload monthly payroll data into the pension database, improving efficiency and accuracy of data and ensuring timely record maintenance.

Scheme Administration (continued)

Scheme Framework

The Local Government Pension Scheme is a statutory funded pension scheme. The operation of the Northamptonshire Pension Fund is principally governed by the Local Government Pension Scheme Regulations 2013 (as amended) and the Local Government Pension Scheme (Transitional Provisions, Savings and Amendment) Regulations 2014 (as amended) which have been made within the context of the primary legislation of the Public Service Pensions Act 2013.

The Scheme covers eligible employees of the Unitary authorities, the Police Authority, Police and Crime Commissioner and Academies within the county area other than teaching staff, police officers and fire-fighters for whom separate statutory arrangements exist. A number of other bodies are also members of the scheme.

Employers' contribution rates are set by the Fund's Actuary every three years following the valuation of the Fund, in order to maintain the solvency of the Fund. The last valuation took place as at 31 March 2022. The results of the valuation were a funding level of 113% (31 March 2019: 93%) and an average primary employer contribution rate of 20.5% (31 March 2019: 19%). The primary rate includes an allowance of 0.8% (31 March 2019: 0.8%) of the pensionable pay for the Fund's expenses. The average employee contribution rate is 6.3% (31 March 2019: 6.3%) of pensionable pay.

On 1 April 2014, the new Local Government Pension Scheme 2014 came into effect, allowing more flexibility around paying into the scheme and drawing benefits in comparison to the 2008 scheme. Normal pension age is linked to the state pension age but benefits can be drawn earlier or later, between age 55 and 75. The normal retirement age is the age a member can access their pension in full; if it is accessed before that date benefits will usually be reduced and if accessed after normal retirement age benefits may increase. All service built up to 31 March 2014 in the LGPS is fully protected and will continue to be based on a member's final year annual pay when the individual leaves the LGPS (2008 scheme).

Benefits built up before April 2014 also retain their protected Normal Pension Age, which for most members is 65, although certain members have a retirement age of 60 for all or part of their membership.

There is an additional protection known as the 'underpin' for members who were active on 31 March 2012 and were within ten years of their Protected Normal Pension Age on 1 April 2012. These members will get a pension at least equal to the pension they would have received in the LGPS had it not changed on 1 April 2014, subject to meeting certain criteria.

In December 2018 the Court of Appeal ruled against the Government in two linked cases relating to the Judicial Pension Scheme and the Firefighters' Pension Schemes. This ruling is generally referred to as the McCloud judgment, or simply McCloud.

In essence, the Court held that the transitional protections afforded to older members of these schemes when their reformed schemes were introduced in 2015 constituted unlawful age discrimination.

The Government sought permission to appeal to the Supreme Court and it was announced on 27 June 2019 that the application had been refused.

A written ministerial statement followed on 15 July 2019 to confirm that, as transitional protection was provided in all public service schemes upon their reform, the McCloud judgment had implications for all those schemes, including the LGPS in England and Wales.

Primary legislation required in relation to the McCloud remedy has now been put in place as The Public Service Pensions and Judicial Offices Bill received Royal Assent in March 2022, becoming the Public Service Pensions and Judicial Offices Act 2022.

While there was a DLUHC consultation in 2020 on proposed amendments to the LGPS Regulations necessary to remedy the specific unlawful age discrimination in the LGPS, no actual amendments have been made as yet. A consultation took place in Summer 2022 on the proposals to extend the current underpin to younger members and remove the requirement to have an immediate entitlement to benefits on leaving to qualify for underpin protection

Scheme Administration (continued)

The below table compares the 2008 and the 2014 schemes.

	LGPS 2008	LGPS 2014
Basis of Pension	Final Salary	Career Average Revaluated Earnings (CARE)
Accrual Rate	1/60 th	1/49 th
Revaluation Rate	Based on Final Salary	Consumer Prices Index (CPI)
Pensionable Pay	Pay excluding non contractual overtime and non pensionable additional hours	Pay including non-contractual overtime and additional hours
Employee Contribution Rates	Between 5.5% and 7.5%	Between 5.5% and 12.5%
Contribution Flexibility	No	Option to pay 50% contributions for 50% of pension benefit
Normal Pension Age	65	Equal to individuals state pension age
Lump Sum Trade Off	Trade £1 of pension for £12 lump sum	Trade £1 of pension for £12 lump sum
Death in Service Lump Sum	3 x Pensionable Pay	3 x Pensionable Pay
Death in Service Survivor Benefits	1/160 th accrual based on Tier 1 ill health pension enhancement Tier 1 – Immediate payment with service enhanced to Normal Pension Age (65)	1/160 th accrual based on Tier 1 ill health pension enhancement Tier 1 – Immediate payment with service enhanced to Normal Pension Age
Ill Health Provision	Tier 2 – Immediate payment with 25% service enhancement to Normal Pension Age (65) Tier 3 – Temporary payment of pension for up to 3 years	Tier 2 – Immediate payment with 25% service enhancement to Normal Pension Age Tier 3 – Temporary payment of pension for up to 3 years
Indexation of Pension in Payment	CPI (RPI for pre-2011 increases)	CPI
Vesting Period	3 months	2 years

Scheme Administration (continued)

Pension Committee and Local Pension Board Membership

The following table shows the attendance of Committee and Board members at applicable Pension Committee, Investment Sub-Committee and Local Pension Board meetings during 2022-23, training undertaken in year, including; Training days, Conferences and Strategic Workshops.

Councillor/Member Name	Committee/Board	Meetings Attended	Training Undertaken (In person and virtual)
Cllr Longley	Pension Committee	5 meetings out of 5	6 sessions attended
	Investment Sub Committee	4 meetings out of 4	
Cllr Morton	Pension Committee	5 meetings out of 5	7 sessions attended
	Investment Sub Committee	3 meetings out of 4	
Cllr Bignell	Pension Committee	3 meetings out of 5	5 sessions attended
	Investment Sub Committee	3 meetings out of 4	
Cllr Russell	Pension Committee	1 meeting out of 5	1 session attended
	Investment Sub Committee	2 meetings out of 4	
Cllr Lawman	Pension Committee	5 meetings out of 5	7 sessions attended
	Investment Sub Committee	4 meetings out of 4	
Robert Austin	Pension Committee	4 meetings out of 5	6 sessions attended
	Investment Sub Committee	2 meetings out of 4	
Peter Borley-Cox	Pension Committee	3 meetings out of 5	4 sessions attended
	Investment Sub Committee	3 meetings out of 4	
Cllr Joyce	Pension Committee	3 meetings out of 5	3 sessions attended
Cllr Matten	Pension Committee	4 meetings out of 5	4 sessions attended
Cllr Lane	Pension Committee	3 meetings out of 5	3 sessions attended
Cllr Bunday	Pension Committee	2 meetings out of 5	1 session attended
Paul Wheeler	Pension Committee	2 meetings out of 2 (appointed Nov22)	4 sessions attended
John Wignall	Pension Committee	1 meeting out of 4 (resigned Mar23)	3 sessions attended
Cllr Pritchard	Local Pension Board	2 meetings out of 4	2 sessions attended
Cllr Weatherill	Local Pension Board	4 meetings out of 4	2 sessions attended
Julie Petrie	Local Pension Board	4 meetings out of 4	3 sessions attended
Kev Standishday	Local Pension Board	4 meetings out of 4	1 session attended
Alicia Bruce	Local Pension Board	4 meetings out of 4	3 sessions attended
Katy Downes	Local Pension Board	3 meetings out of 4	1 session attended
Andy Langford (substitute)	Pension Committee	2 meetings out of 5	

Scheme Administration (continued)

Policies and Strategy Statements

Information about the Fund's policies and procedures can be found on the Fund's website:

[Northamptonshire Pension Fund Key Documents](#)

The following policies were in place during the financial year

- Administering Authority Discretions
- Administration Strategy
- Admitted Bodies Scheme Employers and Bulk Transfers Policy
- Annual Business Plan & Medium Term Strategy
- Anti-Fraud and Corruption Policy
- Northamptonshire Pension Fund Training Strategy
- Cash Management Strategy
- Cessations Policy
- Climate Action Plan
- Communications Plan
- Communications Strategy
- Data Improvement Policy and Plan
- Employer Data Retention Policy
- Funding Strategy Statement
- Governance Policy and Compliance Statement
- Investment Strategy Statement
- Overpayment of Pension Policy
- Payment of Pension Contributions Policy
- Reporting Breaches of the Law to the Pensions Regulator Policy
- Risk Register
- Risk Strategy
- The Fund also has a Cyber Strategy, however this is not published due to its sensitive nature

Statement/Policy Changes in 2022-23

The following strategies and policies have been reviewed and updated accordingly in 2022-23:

- Administering Authority Discretions
- Annual Business Plan and Medium-Term Strategy
- Anti-Fraud and Corruption Policy
- Cessations Policy
- Climate Action Plan
- Communications Plan
- Communications Strategy
- Conflicts of Interest Policy
- Data Improvement Policy
- Data Improvement Plan
- Funding Strategy Statement
- Investment Strategy Statement
- Overpayment of Pension Policy
- Reporting Breaches of the Law to the Pensions Regulator
- Risk Register
- Risk Strategy

Management and Financial Performance

The Team

The Pensions Service is based in Northampton and consists of the following teams:

- Accounting** – record and reconcile contributions paid into the Fund and accounts for fund expenses. Provide financial monitoring and reporting of functions such as debt management and cash requirements and investment accounting.
 Email: PenContributions@westnorthants.gov.uk
- Employers** – contact point for employers of the scheme and those wanting to join. Deliver training sessions to employers and payroll providers covering the systems available to assist them to participate efficiently in the Fund.
 Email: PenEmployers@westnorthants.gov.uk
- Governance** – support all Committees in governing the Fund effectively, develop and monitor policies and practices to improve data quality and ensure regulatory compliance.
 Email: Pensions@westnorthants.gov.uk
- Investments** – oversee the governance of Fund assets and support the Investment Sub-Committee.
 Email: PenInvestments@westnorthants.gov.uk
- Operations** – maintain member records, calculate benefits and pensions payable.
 Email: Pensions@westnorthants.gov.uk
- Projects** – is responsible for delivering a wide range of projects that are required to be delivered across the service.
 Email: PenProjects@westnorthants.gov.uk
- Systems** – ensure internal systems are operating efficiently and provide support to maintaining accurate member records.
 Email: PenSystems@westnorthants.gov.uk

Complaints

Should you have a complaint about the service, we will do our best to put things right. To access support, please email Pensions@westnorthants.gov.uk, telephone 01604 366537, or write to:

Pensions Service, West Northamptonshire Council, The Guildhall, St Giles Square, Northampton, NN1 1DE

Appeals

The LGPS regulations provide Internal Dispute Resolution Procedures (IDRP), details of which can be accessed via [the website](#).

Stage 1 disputes are decided by Head of Pensions if the complaint concerns an administering authority decision, or by an adjudicator appointed by the Employer if an Employer decision.

At Stage 2, the complaint is considered by West Northamptonshire Council's Monitoring Officer, and if the complainant is still unhappy with the decision they may formally refer the case to The Pensions Ombudsman.

At any stage a scheme member may contact The Pensions Ombudsman for assistance with their complaint, but for a formal complaint to be raised with them both Stages of the IDRP would normally need to be completed first. More information can be found on [The Pensions Ombudsman website](#).

The following formal disputes have arisen and/or been resolved during the year:

Nature of dispute	Stage 1	Stage 2
Pension Credit member quoted max conversion options on Member Self-Service when option not available.	Partially Upheld	Not Upheld
Refusal to pay survivor's pension to co-habiting partner.	Not Upheld	N/A
Challenging payments of death grant.	Not Upheld	In Progress
Delays in paying pension and AVCs causing anguish and inconvenience.	Upheld	Not Upheld
Challenging refusal to pay NCC Deferred Benefit early on ill health grounds.	Not Upheld	In Progress
Refusal to allow transfer of AVCs to an alternative arrangement	In Progress	

Management and Financial Performance (continued)

Managing Decision Making

West Northamptonshire Council has established a Pension Committee (PC) and Investment Sub-Committee (ISC) having strategic and operational investment decision making powers, respectively.

Membership of both bodies consist of elected members, and non-elected employer and scheme member representatives. All members of the ISC sit on the PC.

The PC's business covers all Fund matters with the exception of non-strategic investment issues, which are delegated to the ISC. Officers across the operations, investment, transactions, corporate and governance functions support the PC and ISC as required. All meetings of the PC and ISC are duly minuted.

PC members and ISC members are required to attain a desired level of skills and knowledge, to ensure decisions being made on behalf of West Northamptonshire Council Pension Fund are made with full understanding of the impact and therefore mitigating the risk of unfounded decisions.

The Committee members must at all times be conscious of their accountability to stakeholders. The PC is responsible for determining the nature and extent of any significant risks taken on by the Administering Authority in the pursuit of its strategic objectives. Risk management should be dynamic and comprehensive, considering operational, reputational and environmental, social and governance (ESG) risks in addition to financial risks.

The Northamptonshire Full Council acknowledged the establishment of the ACCESS Joint Committee (AJC) delegating powers to this body in response to the Government's pooling agenda. The Chairman of the PC represent the Fund on the AJC, supported by Fund officers working in the ACCESS Officers Working Group (OWG).

The Local Pension Board (LPB) was established on 1 April 2015, providing an additional layer of governance for the Fund. The LPB is non-decision making but has the responsibility of assisting the Administering Authority to:

- Secure compliance with the Local Government Pension Scheme (LGPS) regulations and other legislation relating to the governance and administration of the LGPS and also the requirements imposed by the Pensions Regulator in relation to the LGPS; and
- Ensure the effective and efficient governance and administration of the LGPS.

The LPB has provided a separate annual report of its activities to Council for this financial year.

Management and Financial Performance (continued)

Risk Management

The Northamptonshire Pension Fund has both a risk strategy and a risk register in place to identify, evaluate, mitigate and monitor risks associated with the activities that the Fund carries out. Risk is managed through regular reporting to both the Pensions Committee and Local Pension Boards which have appropriate authorisation from the West Northamptonshire Council's Monitoring Officer and Section 151 Officer. This ensures that risks are integrated within the governance structure of West Northamptonshire Council and all follow a consistent approach.

Identified risks are recorded in the Risk Register, a copy of which can be found at: [Risk Register](#)

The aim of the Risk Register is to ensure that an informed decision can be made on whether a risk can, or should be accepted. Risk appetite is informed by an understanding of any existing controls and will also be influenced by the expected reward or outcome. Once risks have been identified the Fund assesses the impact and likelihood of a risk to enable effective decision making.

Risks recorded in the Risk Register are linked and managed in line with the Pension Fund objectives to ensure relevance and are reviewed by the Pension Committee twice a year and the Local Pension Board quarterly. New risks are therefore identified promptly and current risks are monitored on a regular basis, with risk ratings revised where necessary. The accompanying Risk Strategy is reviewed on an annual basis to ensure it remains relevant to support the Risk Register.

Third party risks are managed through the Risk Register and associated policies, such as the Payment of Pension Contributions Policy. Mitigations are put in place to minimise third party risks and, in particular, the risks associated with Scheme Employers and effective covenant monitoring.

Investment Risk

The Fund's Investment Strategy Statement, which is reviewed annually, sets out the Fund's investment strategy which incorporates evaluation of key investment risks.

In addition the Statement of Accounts section of this document, provides further information about Investment risks and how they apply to the Investment Assets held by the Fund.

There are many risks inherent in investments. The Fund addresses these in the following ways:

Market Risk – investments will reduce in value due to fluctuations in prices, interest rates, exchange rates and credit spreads.

The Fund invests in different markets across the world and in different types of investment to reduce the risk of the portfolio reducing in value due to adverse market conditions and to smooth returns.

Price Risk – investments may be incorrectly valued due to price fluctuations or estimates used in pricing.

Investments are valued at published prices, where available. Investments that are not sold on a market are valued by specialist Investment Managers. Notes 16, 17 and 18 in the Statement of Accounts gives information about how investments are valued and gives an indication of the value of investments subject to an element of estimation.

At year end all Investment Managers, including Link Fund Solutions who are the operator of the ACCESS pool (page 28), are required to provide ISAE 3402 (Service Organization Control Reports) which are made available to external audit.

Risk Assurance

The objective of an internal audit is to educate management and employees about how they can improve business operations and efficiencies while giving reliability and credibility to the financial reports that go to Pension Committee and the Local Pension Board. Internal audit awarded the Fund substantial assurance following its testing within the year.

Management and Financial Performance (continued)

Financial Performance

The financial performance of the Fund is monitored against budgeted performance on a regular basis throughout the year by the Pension Fund Committee.

Performance Indicators	2022-23	2022-23
	Budget	Actual
	£000	£000
Contributions	-120,000	-130,100
Transfers in from other funds	-8,500	-16,937
Total Income	-128,500	-147,037
Benefits payable	108,000	105,500
Payments to and for leavers	8,500	10,648
Total Benefits	116,500	116,148
Surplus of contributions over benefits	-12,000	-30,889
Management Expenses		
Administrative Costs	2,331	2,483
Investment Management Expenses (Invoiced)	480	276
Investment Management Expenses (Non-Invoiced)	0	12,945
Oversight and Governance Costs	834	911
Total Management Expenses	3,645	16,615
Total Income less Expenses	-8,355	-14,274
Investment Income	-26,000	-34,027
Taxes on Income	0	0
(Profit)/loss on disposal and changes in market value of investments	-127,000	166,048
Net return on investments	-153,000	132,021
Net (increase)/decrease in assets during the year	-161,355	117,747

Management expenses per active member are shown below:

Cost Per Active Member	2021-22	2022-23
Active Members	23,868	23,949
	£	£
Administrative Cost	99.38	103.68
Investment Management Expenses	457.85	552.05
Oversight and Governance Costs	29.66	38.04

Variance Analysis

- Contributions and benefits are in line with current membership numbers.
- Transfers in and payments out are demand led.
- Investment Management expenses budget is understated as this does not include a forecast for non-invoiced expenses which are pooled fees deducted from market value. This will be included in the 2023-24 budget.
- The 2022-23 budget for profit/loss on disposal and changes in market value of investments assumed the actuaries target would be achieved. The actual market experience is explained in the independent investment advisors report (page 39).

Details of non-investment assets and liabilities of the Fund can be found in the Statement of Accounts in Notes 21 to 22.

Management and Financial Performance (continued)

Performance Indicators

The Fund has developed a number of Key Performance Indicators (KPIs) to monitor service delivery, these KPIs are reviewed internally on a monthly basis to monitor and inform where delivery is met or remedial action is required. The Pension Fund Committee receives quarterly performance updates within a Business Plan update.

The below table shows the number and trend of the top 7 types of scheme administration cases demonstrating both workload and efficiency in meeting internal KPI and external legal requirements.

	Cases completed in the year	Cases completed within KPI target	% of Cases completed within KPI target
Deaths – initial letter acknowledging death of member <i>KPI: 5 working days, Legal requirement: 2 months</i>	536	536	100
Deaths – letter notifying amount of dependant’s pension <i>KPI: 5 working days, Legal requirement: 2 months</i>	330	329	99
Estimates – letter notifying estimate of retirement benefits to employee <i>KPI: 15 working days, Legal requirement: 2 months</i>	469	433	92
Retirements – process and pay pension benefits on time <i>KPI: 5 working days, Legal requirement: 2 months</i>	370	343	93
Deferment – calculate and notify deferred benefits <i>KPI: 15 working days, Legal requirement: N/A</i>	2,197	2,103	96
Transfers in – Letter detailing transfer in (actual) <i>KPI: 10 working days, Legal requirement: 2 months</i>	258	253	98
Transfers out – letter detailing transfer out (quote) <i>KPI: 10 working days, Legal requirement: 3 months</i>	488	485	99

Management and Financial Performance (continued)

Contributions

The Fund works closely with employers to collect contributions on time.

The following table shows the amount of regular employee and employer contributions paid during the year and the value and percentage of which were paid both on time and after the deadline of the 19th day of the month following deduction.

Contributions	Total Paid in 2022-23 £000	Total Paid On Time £000	% Paid On Time	Total Paid Late £000	% Paid Late
Employer	103,236	103,104	99	132	1
Employee	26,864	26,826	99	38	1
Total	130,100	129,930	99	170	1

The Fund did not apply any additional charges or levies in respect of contributions received late, and no reports were made to The Pensions Regulator in respect of late contributions during the year.

Recovery of Overpayments of Pension

The Fund participates in the National Fraud Initiative which is a biennial process. The necessary recoveries arising from identified overpayments are being pursued.

Annual Pensioner Payroll (£) ¹	88,385,162
Total write off amount (£)	212,053
Write offs amount as % of payroll	0.24

¹Excludes additional pension awarded by the employer.

The following tables show the analysis of pension overpayments that occurred during the last five years:

Year	Overpayment £	Recovered/in progress £	Written Off £
2018-19 ²	516,269	379,396	136,873
2019-20	136,830	47,180	89,650
2020-21	45,998	5,297	40,701
2021-22	11,326	9,481	1,845
2022-23 ³	262,560	50,507	212,053

²Overpayments in 2018-19 and 2019-20 appear particularly high, as in addition to usual activity, the Fund undertook a significant reconciliation project during the year in which a number of overpayments were identified.

³Overpayments in 2022-23 are high, as in addition to usual activity, the Fund undertook a Guaranteed Minimum Pe (GMP) rectification project. Overpayments identified as a result of incorrect or non-application of the GMP are automatically written off without authorisation, unless the member could have known that their pension was being paid incorrectly as a result of the non or misapplication of GMP.

Overpayments identified with a value of under £250 are automatically written off, in line with the Fund's Overpayments Policy.

Management and Financial Performance (continued)

Contributors to the Fund

Active Employers as at 31 March 2023

Type Of Body	Number of Active Employers
Administering (AA)	1
Scheduled (S)*	260

The table to the left, shows the number of employers in the Fund as at 31 March 2023. The breakdown of contributions by employer shown in the table below will show a different number of employers when compared to the left, as employers joined and left the fund throughout the year. An active or ceased column has been added to show this movement. Where contributions exist for ceased employers, these represent prior year adjustments that have been made within 2022-23, or contribution receipts recorded within the period.

Investment Policy and Performance

Introduction

The Fund's approach to its investment arrangements is set out in its Investment Strategy Statement, (ISS) as required by Regulation 7 of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2016 ("the Regulations") that requires the Fund to create and maintain an approach to investments that includes, amongst other things:

- a requirement to invest fund money in a wide variety of investments;
- the Fund's assessment of the suitability of different types of investments;
- the Fund's approach to risk, including the ways in which risks are assessed and managed;
- the Fund's approach to pooling investments;
- the Fund's policy on how social, environmental and corporate governance considerations are taken into account; and
- the Fund's policy on the exercise of the rights (including voting rights) attaching to investments.

The Pensions Committee (PC) approves investment policies and strategy and an Investment Sub-Committee (ISC), which is supported by the Fund's Advisors, to implement these investment policies and strategy, which includes the appointment and dismissal of Investment Managers and monitoring of performance.

The Fund adopts a long-term perspective, focussing its investment strategy to generate sustainable returns on a risk adjusted basis to grow the Fund's assets to reflect its equally long-term future liabilities. The Pensions Committee, Local Pensions Board, Fund officers and professional advisors have worked hard to develop an enhanced responsible investment (RI) policy, which forms part of our overall investment strategy. The new RI policy sets out our approach to sustainable responsible investment and will help us manage the carbon and climate risks impacting our investments better.

The RI policy was agreed following a consultation that was open to scheme members and scheme employers. You can find a copy of the summary consultation responses and an updated investment strategy statement on our [key documents page](#).

The revised RI policy will inevitably mean some changes to our underlying investments over time. In February 2022, the Investment Sub Committee approved decarbonisation targets to reduce the carbon emissions of listed equities by 25% by 2024 and by 59% by 2030 together with a climate action plan for 2022, 2023 and beyond.

The Fund intends decarbonising the portfolio at the same rate as the European Policy Curve (EPC) meaning the Funds decarbonisation pathway would align with Paris Accord and achieve the ambitions target to reach net zero by 2050 or earlier.

Progress against these targets will be reviewed regularly via a climate dashboard setting out key carbon metrics which will be measured and tracked over time. Regular communication will be provided on how the Fund is progressing on its journey to achieve net zero.

You can find copies of the Funds climate action plan, decarbonisation pathway, and climate dashboard on the [key documents page](#).

The Fund is a member of the Local Authority Pension Fund Forum (LAPFF), which is a voluntary association of LGPS funds that seeks to protect and enhance the value of its members' shareholdings by way of shareholder engagement, by action on corporate governance issues and by seeking to promote the highest standards of corporate social responsibility at the companies in which LAPFF members invest. Through LAPFF, the Fund exercises its belief that engagement with company management to promote improvements in SRI practices is more powerful than divesting from the company's shares.

The Fund will continue to support the principles of the UK Stewardship Code (the "Stewardship Code") with plans to subscribe to the Stewardship code during 2023-24.

Information about Investment Manager voting is available at [Northamptonshire Pension Fund Key Documents](#)

Investment Policy and Performance (continued)

Role of Investment Managers

Each Investment Manager relationship is governed by an Investment Management Agreement, which sets out how much they can invest, the asset class in which the Fund has employed them to invest, the expected target return and how much the Fund will pay for this service.

Active focus

The Fund with the exception of the passive Global Equity mandate and passive index-linked bonds, favours “active” briefs to outperform agreed specific benchmarks.

Custodian

The Fund’s Custodian is Northern Trust. The Custodian is responsible for ensuring that the Fund has good title to all investments, that all trades instructed by Investment Managers are settled on time and that all income due to the Fund is received and recorded accurately. Northern Trust also maintain the investment accounting records for the Fund.

Asset Pooling

The Fund is working with ten like-minded LGPS funds to implement the ACCESS asset pool in response to the Government’s LGPS reform agenda. The main aim is to encourage LGPS Funds to work together to form asset pools to “pool investments to significantly reduce costs, while maintaining investment performance.” Individually, the participating funds have a strong performance history and potential for substantial benefits for a group of successful, like-minded authorities collaborating and sharing their collective expertise. Collectively as at 31st March 2023, the ACCESS Pool has significant scale with assets of £59bn (of which 59% has been pooled) serving 3,459 employers with 1.192 million members including 339,058 pensioners.

The roles and decision-making relationship between the eleven funds is informed by an Inter Authority Agreement. The ACCESS pool is governed by the ACCESS Joint Committee (AJC) comprising the Chairmen of the eleven constituent funds. The AJC have appointed Link Fund Solutions Ltd (Link) as operator of the pool and the LF ACCESS Authorised Contractual Scheme (ACS).

The Fund’s passive equity investments are invested with UBS Asset Management under a collaborative arrangement with fellow ACCESS funds, which has generated significant fee savings for the Fund.

At 31 March 2023, the Northamptonshire Fund had invested £1,480m in sub-funds of the ACCESS Authorised Contractual Scheme and £904m in the UBS passive arrangement resulting in £2,384m of assets under pool management representing 74% of the Fund’s assets.

During 2023-24 the Fund expects further investment in fixed income sub-funds of the ACS when they become available. The focus for ACCESS in 2023-24 is to continue work performed in 2022-23 to develop a pooled solution for Alternative asset classes.

The ACCESS Support Unit (ASU) has been created to manage the Operator contract against specified KPIs and provide technical and secretariat support services to the AJC and Officer Working Group (OWG).

In addition to the savings in Investment Management fees through joint investments, there are other tangible benefits from pooling including a governance dividend (potential for reduced risk due to manager diversification achieved at pool level) and tax savings.

More information about the ACCESS asset pool can be found on their website: [ACCESS Pool](#). The ACCESS Annual Report can be found at Appendix A to the Annual Report.

Investment Policy and Performance (continued)

The Costs of Pooling

The costs of the pool are collected by a nominated ACCESS authority and re-charged in equal shares to the eleven ACCESS funds.

Northamptonshire's share of costs is reported within Oversight and Governance Costs in Note 11 to the Statement of Accounts and comprises the following:

Operational Costs	2022-23 £000	2015-16 to 2022-23 Cumulative £000
Strategic & Technical	30.4	192.0
Legal	19.9	131.9
Project Management	0	81.1
ACCESS Support Unit	50.7	211.2
Other	5.9	35.3
Total Operational Costs	106.9	651.5

Cost Savings

The fee savings for the 2022-23 financial year resulting from the asset pooling agenda exceed £2m.

Cost Transparency

The analysis below shows the investment expenses incurred during financial year 2022-23 between expenses incurred in respect of Pooled Assets held in the ACCESS Pool and those assets held outside of the pool. Direct costs include invoiced costs and costs deducted from the value of fund, or from income generated, in accordance with the fee agreement in place with each manager and explicit transaction costs. Indirect costs include implicit costs and third-party fees and charges. These are indicative estimates provided by Investment Managers as the reporting practices for the Cost of Transparency are still evolving.

Cost Transparency - continued

Investment Policy and Performance (continued)

Investment Allocation and Performance

The Pension Fund Committee is responsible for approving the Strategic Asset Allocation proposed by the Investment Sub-Committee (ISC). The Pension Fund Committee performed a review of the Strategic Asset Allocation at the March 2023 meeting in conjunction with the Fund’s Investment Consultants, Mercer Ltd and the independent Investment Advisor. The review assessed the appropriateness of the current strategy and any changes necessary to increase the likelihood of meeting the Fund’s objectives, namely:

- To reach full funding and be in a position to pay benefits as they fall due; and
- To ensure contributions remain affordable to employers

The recommended changes to the strategy aims to manage the risk that asset returns are below those assumed by the actuary, whereby the funding position worsens. The following changes to the strategy were approved by Pension Fund Committee in March 2023:

- Reduce the equity allocation by 12.5%, removing the standalone UK equity allocation and retaining the passive equity allocation at 20%;
- Increase fixed income (+10%) and alternatives (+2.5%) allocations to provide greater exposure to inflation linked, cashflow generative assets while protecting the strong funding position;
- Remove the Diversified Growth Fund (-5%) within the alternatives allocation to facilitate direct investment across private market alternative assets;
- Consider sustainable and impact opportunities across an expanded private markets portfolio –aligned with “levelling up” guidance.

The charts below show the Strategic Asset Allocation at the end of the financial year, the strategic asset allocation following Pension Fund Committee approval and the actual allocation of assets at 31 March 2023.

Investment Policy and Performance (continued)

Value of Investments held by each of the Fund's Investment Managers on 31 March 2022 and 31 March 2023:

Manager	31 March 2022		31 March 2023

Investment Policy and Performance (continued)

Total Fund Performance

The total investment return for the Fund over the financial year was -4.8% net of fees compared with a weighted benchmark return of -3.8%. In the previous year the total investment return was 8.2% compared with a weighted benchmark of 10.8%. The Fund's total investment return was 9.7% p.a over the three years to 31 March 2023, 6.2% p.a over the five years to 31 March 2023, and 7.4% p.a over the ten years to 31 March 2023.

Performance of Managers

The ISC continues to monitor the Investment Managers' performance against their benchmark at their quarterly meetings. All managers are measured against market-based performance benchmarks with bespoke outperformance targets set for active managers which are expected to be met over a three to five year period. Net of fees performance of each manager compared to benchmark over one, three and ten years is shown in the table below.

Asset Class /Manager	1 year (% p.a)			3 year (% p.a)			10 year (% p.a)		
	Return	Benchmark	Variance	Return	Benchmark	Variance	Return	Benchmark	Variance
Liontrust UK Equity	2.6	2.9	-0.3	12.7	13.8	-1.1	5.5	5.8	-0.3
Newton – Global Equity	0.1	-1.4	1.5	14.8	15.5	-0.7	10.8	10.3	0.5

Investment Policy and Performance (continued)

Performance in Comparison with Local Authority Universe

The Local Authority Universe is a national scheme consisting of 63 pension funds collated by PIRC Ltd that provides benchmarking of local authority pension funds investment performance. In 2022-23 the Fund's performance of -4.8% net of fees over the financial year was ranked 80th percentile out of the 63 Funds participating in the Universe.

The Fund's current strategy has a slightly higher allocation to Equities and Bonds and a lower allocation to Alternatives when compared to the Local Authority Universe.

Investment Policy and Performance (continued)

Climate Change Report

Executive summary

The Fund recognises the systemic risk associated with climate change as well as the Administering Authority's targets in this regard and the views and aspirations of other scheme employers and scheme members.

In order to manage this systemic risk and to align with its support of the Paris Agreement and a “just transition”, **the Fund currently expects that its investment portfolio will be net carbon neutral by 2050, in line with UK Government’s targets.**

The Fund is working towards producing a climate change reports in future which comply with Task Force on Climate-Related Financial Disclosures (“TCFD”) reporting recommendations, which are expected to become mandatory for LGPS Funds in the coming years. This report provides a summary of the Fund’s position as it relates to climate change, assessed across the four pillars under the TCFD Framework:

- **Governance:** How the Pension Fund Committee (“Committee”) maintains oversight and incorporates climate change into its decision making;
- **Strategy:** How potential future climate warming scenarios could impact the Fund;
- **Risk Management:** How climate-related risk is incorporated in the Fund’s broader risk management processes; and
- **Metrics and Targets:** How the Committee measures, and monitors progress against different climate related indicators known as metrics and targets.

Governance

The Administering Authority has delegated to the Committee the power to determine and maintain the Fund’s strategies, policies and

procedures. Implementation of the strategy and the monitoring of performance is delegated to the Investment Sub-Committee (“ISC”), for which the membership is drawn from the Committee.

Research into how climate-related risks and opportunities impact financial markets is constantly evolving and expanding. The Committee or its ISC receives training on a regular basis to keep up-to-date with developments and will allocate time on meeting agendas to cover items such as developing and meeting the Fund’s climate action plan, climate-change scenario analysis, reporting of metrics and monitoring of progress against agreed targets.

The Committee acknowledges that the reporting of climate-related risk is relatively new and the collective experience of the Committee and ISC will grow over time.

Climate change will form an explicit agenda item at least annually for the Committee or ISC when the Fund’s climate action plan and / or when the Fund’s annual climate change report is updated. It will also be covered as part of other agenda items as part of a wider discussion of funding or investment strategy, or as part of the investment manager appointment and review discussions.

Strategy

The Fund undertook climate scenario analysis on its investment strategy in 2021. Given the uncertainty around the timing and impact of climate-related transition and physical risks, the ISC considered three climate scenarios or ‘warming pathways’ i.e. the expected degrees of warming of the atmosphere by the end of the century relative to pre-industrial levels, to help test the resiliency of the Fund’s investment strategies at the strategic level.

Investment Policy and Performance (continued)

Whilst a lower warming pathway (**2°C scenario**) is one in which governments, businesses and society should aim for as a minimum, there is a possibility that a failure to reduce GHG emissions quickly enough could set off irreversible feedback loops that significantly warms the planet (as modelled by **3°C and 4°C scenarios**).

The Fund will be impacted by climate change, regardless of the scenario that unfolds.

Resilience of the Fund's investment strategy

The table below shows how a 2°C scenario leads to enhanced projected returns for the Fund's investment strategy versus 3°C or 4°C scenarios, with the greatest Impact over the period to 2030.

Warming pathway scenario	Year	Climate change impact on return (% per year)
2°C	2030	0.12%
2°C	2050	-0.06%
2°C	2100	-0.08%
3°C	2030	-0.01%
3°C	2050	-0.06%
3°C	2100	-0.10%
4°C	2030	-0.08%
4°C	2050	-0.14%
4°C	2100	-0.18%

Transition opportunities emerge from a 2°C scenario

The graphic to the right illustrates the benefits of investing sustainably (i.e. in a portfolio broadly aligned with the Fund's investment strategy but where asset class exposures are mapped to sustainable equivalents).

Climate change impact on return (% p.a.)

As at 30 June 2021. Source: Mercer/Investment Managers

Under the 2°C scenario, to 2030, the Sustainable Portfolio is expected to benefit by up to +16.2% on a cumulative basis, compared with the Fund's current investment strategy.

Key findings of the analysis

Investing for a 2°C scenario is both an imperative and an opportunity the Fund should address.

- An imperative, since, for nearly all asset classes and timeframes, a 2°C scenario leads to enhanced projected returns versus 3°C or 4°C and a better investment outcome.
- An opportunity, since, although incumbents can suffer losses in a 2°C scenario, there are many notable investment opportunities enabled in a low-carbon transition, including sustainability themed investments in listed and private equities to infrastructure and fixed income.

Climate scenario analysis is an ever evolving space and, as such, the scenarios modelled and reported may be subject to review in future periods. It is important to note that the modelling may understate the true level of risk due to the uncertainty around the future economic impacts of climate change.

Investment Policy and Performance (continued)

Risk Management

This section summarises the primary climate-related risk management processes and activities carried out for the Fund. These assist with understanding the materiality of climate-related risks, both in absolute terms and relative to other risks that the Fund is exposed to.

Governance	<p>The Fund recognises the systemic risk associated with climate change and the views and aspirations of other scheme employers and scheme members.</p> <p>The Fund has acknowledged the risk to the Fund of climate change in its Risk Register: “As long-term investors, the Fund believes climate risk has the potential to significantly alter the value of the Fund’s investments.”</p> <p>The Officers maintain a Climate Action Plan which is reviewed and updated on a regular basis. This document forms part of the ISC’s wider business plan and summarises the progress, actions and outcomes of scheduled climate-related investment projects and tasks.</p>
Strategy	<p>The Fund’s advisers will take climate-related risks and opportunities into account as part of the wider strategic investment advice provided to the Committee and ISC. This includes highlighting the expected change in climate-risk exposure through proposed asset allocation changes, both from the top-down level (via climate scenario analysis) and bottom-up (via climate-related metrics). Climate scenario analysis for the investments of the Fund will be reviewed periodically.</p>

Reporting	<p>The ISC will receive an annual climate dashboard providing an update on climate-related metrics and progress against targets in respect of the assets held in the Fund. The ISC may use the information to engage with the Fund’s investment managers.</p> <p>The ISC receives a biannual stewardship monitoring report which summarises how the investment managers choose to vote and engage on climate-related issues (among other key engagement priorities).</p>
Manager selection and retention	<p>The ISC, with advice from its advisers, will consider an investment manager’s firm-wide and strategy-specific approach to managing climate-related risks and opportunities when either appointing a new manager, in the ongoing review of a manager’s appointment, or as a factor when considering the termination of a manager’s appointment.</p>

What are the climate-related risks and opportunities?

The Fund has considered two types of climate-related risks and opportunities in its climate scenario analysis:

1. Transition risks and opportunities

This covers the potential financial and economic risks and opportunities from the transition to a low-carbon economy (i.e. one that has a low or no reliance on fossil fuels), in areas such as:

- Policy and legislation
- Market
- Technology
- Reputation

Investment Policy and Performance (continued)

Risks include the possibility of future restrictions, or increased costs, associated with high carbon activities and products.

There are also opportunities, which may come from the development of low-carbon technologies. In order to make a meaningful impact on reducing the extent of global warming, most transition activities need to take place over the next decade and certainly in the first half of this century.

2. Physical risks and opportunities

The higher the future level of global warming, the greater physical risks will be in frequency and magnitude. Physical risks cover:

- Physical damage (storms; wildfires; droughts; floods)
- Resource scarcity (water; food; materials; biodiversity loss)

Physical risks are expected to be felt more as the century progresses though the extent of the risks is highly dependent on whether global net zero greenhouse gas emissions are achieved by 2050.

There are investment opportunities, for example, in newly constructed infrastructure and real estate that are designed to be resilient to the physical impacts of climate change, as well as being constructed and operated in a way that have low or no net carbon emissions. There are also opportunities for investment in those companies or industries that focus on energy conservation and resource efficiency.

Metrics and targets

Metrics

The primary metrics that are used by the Fund to measure climate-related impact are:

- Absolute emissions. This is the total emissions of seven major GHGs associated with the investments held (carbon dioxide,

methane, nitrous oxide, hydrofluorocarbons, perfluorocarbons, sulphur hexafluoride and nitrogen trifluoride).

- Carbon footprint. This is the total emissions per million pounds invested.
- Weighted average carbon intensity (WACI). This is the total emissions per million pounds of sales

Limitations of emissions data

The Fund is aware of issues around data quality, in particular carbon data for many private companies, governments and asset classes is not currently sufficiently robust to set targets against. The Fund has therefore focused on the listed equity portfolio initially, given data quality is more robust within this asset class and it comprises a majority of the Fund's strategic investment portfolio. The Fund will seek to include other asset classes in its carbon reporting as this data quality improves over time.

The Fund is also aware that Scope 3 emissions data, i.e. covering indirect emissions from the value chain such as those embedded in material inputs or freight, is an area that needs development and as such it is not included in the Fund's target-setting process. However, the Fund will continue to collect this data to inform its engagement with investment managers.

Targets

The Fund's overall climate-related objective is to align its portfolio with a 'pursue efforts towards 1.5°C' objective - i.e. net zero by 2050, with an aspiration of achieving a net zero position by 2045.

Targets were set on an absolute emissions basis in 2021, but also monitored on an intensity basis (using two intensity metrics: carbon footprint and weighted average carbon intensity (WACI)). However, the Fund has switched to a carbon footprint metric as the base line measure for a de-carbonisation pathway as it:

Investment Policy and Performance (continued)

- a) It is not impacted by changes in strategy, unlike absolute emissions. For example, the Fund’s strategic target equity allocation was reduced as part of the investment strategy review undertaken during the Fund year which, all else equal, would lead to a reduction in the level of absolute emissions.
- b) If the Fund widens the scope of its climate reporting in future to include additional asset classes, as it intends to do, this would naturally increase absolute emissions. Carbon footprint is not impacted in the same way.

The carbon footprint metric instead normalises absolute emissions by the amount of assets invested. The Fund will continue to track both absolute emissions and WACI too as each metric provides a slightly different insight as to the nature of the companies held within portfolios.

Carbon reporting dashboard

The Fund’s metrics were initially measured as at 30 June 2021, providing a baseline for future targets, and were recalculated as at 30 June 2022 in order to monitor progress against these targets. The metrics are set out in a publicly available carbon reporting dashboard:

The 2021 and 2022 metrics are based on Scope 1 and 2 emissions data for the listed equity portfolio.

The dashboard will be updated on an annual basis.

Progress against targets

The chart below demonstrates the Fund’s progress (Green and Red bars) against the pre-defined pathway (Grey bars) required in order to achieve the Net Zero objective by 2050. The purple bars demonstrate the pathway to achieve Net Zero by 2045 for information.

Listed Equity – Carbon Footprint

While the listed equity portfolio’s Carbon Footprint in 2022 was above the pre-defined pathway, changes to the Fund’s passive equity portfolio were implemented in early 2023 with the objective of improving the portfolio’s climate characteristics. This will be captured in the Fund’s updated metrics at 30 June 2023 and will demonstrate meaningful progress against the targets set.

Investment Policy and Performance (continued)

Investment Review – Financial Year to 31st March 2023

David Crum ASIP, May 2023

Economic Background & Market Review

Region / Asset Class	Index	12 months % return GBP
UK Equities	FTSE All Share	2.9
European Equities	FTSE Europe X UK	8.7
US Equities	S&P 500	-1.7
Japanese Equities	TOPIX	2.8
Asian Equities	MSCI AC Asia ex Japan	-3.0
Emerging Markets Equities	MSCI Emerging Markets	-4.9
Global Equities	MSCI World	-1.0
UK Government Bonds	FTSE A Over 15 Year Gilts Index	-29.7
UK Index Linked Bonds	FTSE A Over 5 Year Index Linked Gilts Index	-30.4
Global Bonds	Merrill Lynch Global Broad Market Corporate Index	-0.8
UK Property	MSCI All Balanced Property Funds Index	-14.5

The financial year to 31st March 2023 was dominated by similar themes to the preceding one, with continuing ructions in geopolitics, global financial markets, and the fiscal & monetary policies of the major economies. These ongoing challenges meant that investors also had to deal with market sentiment volatility, bringing frequent changes in the outlook across the investment landscape.

Trussonomics & ‘That’ Mini-Budget

With the continuing war in Ukraine, and China sticking firmly to its ‘One China’ policy over Taiwan in word and deed, the global political arena continued to be tense with the wide-ranging implications of both actions. European resolve over sanctions held firm against Russia’s aggression, but real concerns over the duration of the conflict were never far from the surface, given the impact the war has had on energy and food prices. In the US, the Biden Administration became somewhat bogged down in delivering policy priorities, hampered by stubborn inflation and a divided nation. Closer to home – and somewhat out of the blue – the UK experienced a unique event, having 3 different Prime Ministers within a two month period.

Whilst that in itself might have spooked investors, the mini-budget ‘Growth Plan’ from Prime Minister Liz Truss and her Chancellor, Kwasi Kwarteng, resulted in a very public vote of no confidence from investors. Markets – particularly UK Government debt – reacted badly to the £45 billion package of tax cuts, which came amidst the strongest inflation seen in four decades. Given that this ‘Plan’ was unveiled without any independent analysis of how it would be funded, the market reaction seemed to come as no surprise to anyone other than the Prime Minister and the Chancellor. Following the resignation of both, the alternative contender for Prime Minister – Rishi Sunak – took over from Truss and appointed Jeremy Hunt as Chancellor. Whilst their ‘budget for growth’ Spring Budget also had tax cuts at its core, there was a balance between small cuts in areas benefitting individuals and an increase in corporation tax from 19% to 25% for larger companies which seemed to placate markets.

Investment Policy and Performance (continued)

Inflation – What Goes Up Must Come Down

Contributions to the UK annual CPIH inflation rate

Source: Consumer price inflation, UK: March 2022 (ONS)

The inflation story continued in an unwelcome vein, with the Consumer Prices Index including owner occupiers' housing costs (CPIH) standing at 8.9% for the 12 months to March 2023 (albeit down from the peak of 9.6% in October 2022). The largest upward contributions to the annual CPIH inflation rate in March 2023 came from housing and household services (principally from electricity, gas and other fuels), and food and non-alcoholic beverages. In the short term, the largest downward contributions to the monthly change in both the CPIH and CPI annual rates came from motor fuels, and housing and household services (particularly liquid fuels). So, whilst the rate of inflation dropped in March, the absolute level of inflation remains high.

Throughout the financial year to 31/03/23, many workers pressed for increases in wages to match inflation. The results were mixed, with some industries achieving increases close to inflation. However, most saw pay rises offered that did not come close to matching inflation. So, in addition to dealing with the cost of living going up, most workers have ended up getting a pay cut in real terms over the last year. This has clear implications for non-essential spending, and so businesses that rely on discretionary spending are likely to continue to have a challenging operating environment for the immediate future.

Interest Rates & the Cost of Living

In my Outlook from last year I said:

'Central banks have their work cut out in trying to manage inflationary pressures via monetary policies that have little headroom for significant interest rate rises, and the relative indebtedness of households means that consumer demand could falter as finances continue to be squeezed.'

The Bank of England, the Federal Reserve and the European Central Bank all raised rates a number of times in the last 12 months to 4.25%, 5% and 3.5% respectively at the end of March 2023, as shown in the chart on the next page. Depending on one's definition of 'significant', it seems that little upward scope or appetite remains for interest rates increases for the most part. And whilst US and EU annual inflation have fallen a reasonable distance from their peaks late last year (suggesting that rate rises have done their job, and that some rate cuts may be on the horizon), the UK's annual inflation has not. At the time of writing this report, the Bank of England had just raised UK interest rates again, up to 4.5%. Rate cuts here seem further down the road.

Investment Policy and Performance (continued)

From a UK household's perspective, the level of debt as a percentage of disposable income has remained relatively stable for the last few years, as shown in this chart.

Source: House of Commons Library

In the last year the UK Government introduced an Energy Bills Discount Scheme to help households offset some of the pain of the increased energy costs. However, the increase in mortgage payments felt by many following the rapid interest rate hikes may yet prove to be more problematic for households. The decrease in availability of rental stock in the UK has also seen average rents increase in the last year. The situation relating to household finances remains incredibly challenging, and so a careful eye will need to be cast on the latest debt figures as they are published.

SVB - Back to the Future

One thing associated with the rising interest rate environment that caught some off guard was the return of choice for cash depositors. In the 'low for long' interest rate environment we have had for more than a decade, there has been little incentive attached to changing banking provider. In the relatively rapidly increasing interest rate environment of the last year, deposit options and differences increased as many banks struggled to keep pace with rising rates.

Nowhere was this clearer than in the US, where a large number of banks of all sizes operate. March 2023 saw the collapse of America's 16th largest commercial bank - Silicon Valley Bank, or SVB, used by many technology and startup companies in the US and around the globe. Having invested billions of dollars in US Government bonds in the low rate environment of the past, SVB saw the value of those investments plummet as interest rates rose. At the same time, borrowing costs rose higher with the interest rate increases, meaning tech startups had to channel more cash towards repaying debt.

What started as a mismatch in investment returns became a classic bank run when SVB announced that it had sold some investments at a loss and would need to sell \$2.25 billion in new shares to plug the hole in its finances.

Investment Policy and Performance (continued)

That set off panic among customers, who withdrew their money in large numbers. The bank's stock subsequently plummeted and dragged other bank shares down with it. Trading in SVB shares was soon halted, with the bank abandoning efforts to raise capital or find a buyer. California regulators then intervened, shutting the bank down.

Problems continued in the US banking sector with the collapse of Signature Bank (also in March) and First Republic Bank (in May, at the time of preparing this commentary). For investors of a certain age, problems in the banking sector bring back painful memories of how the Great Financial Crisis of 2007 – 2008 began. It remains to be seen whether the issues in the US banking sector have been – or indeed can be - contained, and if not, how much appetite and firepower policy makers have to deal with them.

ESG – Now and Always?

Conversations, approaches and regulations around the incorporation of Environmental, Social and Governance (ESG) factors into asset valuations and stewardship approaches continued, but not always in a positive vein. In particular, the US saw an 'anti-ESG' backlash, with Republican States legislating in an attempt to remove ESG considerations from the investment appraisal and monitoring process of public pension funds. It remains to be seen whether this pushback against responsible investment will be successful – the chances are that it will become bogged down in litigation, since there are likely to be as many pension fund members who support the consideration of ESG issues as those that oppose them.

Closer to home, things were more positive on the 'sustainable stewardship' front. The ACCESS Pool, of which the Northamptonshire Pension Fund is a member, published its Responsible Investment Guidelines. I can also confirm that questions associated with ESG issues – including climate change – continued to be asked of the Fund's investment managers during the last year. Work also continued on understanding the extent to which the companies we invest in are reporting their Scope 1, 2 and 3 Green House Gas (GHG) emissions.

Some companies have made big strides in both quantifying their GHG emissions and also coming up with some kind of plan to deal with them. However, many have not, and so we continue to work with the Fund's investment managers and investment consultant to identify ESG issues and laggards. This is a multi-year project, and scheme members can expect to see more reporting on this in future.

Fund Investment Performance	1 Year Performance	3 Year Performance (p.a.)	5 Year Performance (p.a.)
Northamptonshire Pension Fund	-4.8%	9.7%	6.2%
Fund Benchmark	-3.8%	9.4%	6.2%

The Fund returned -4.8% for the year to 31st March 2023, slightly underperforming the benchmark return of -3.8%. All asset classes delivered a negative return in the last year, and this relative underperformance was a combination of a modest underperformance in equities (-0.8% versus the benchmark of -0.7%) and fixed interest (-16.5% versus -16.8%), with a more marked underperformance in alternatives (-4.1% vs -0.4%).

In terms of specific manager performance, Baillie Gifford, who had had such a stellar year in 2020/21, again had a challenging period, delivering a return of -12.4% against a benchmark return of -1.4% for their Global Equities mandate. Indeed, they were the only equity manager that did not beat their benchmark for the period.

The Fund's fixed interest investments were primarily responsible for the overall negative return. The rising interest rate environment in the UK hit returns for the Fund's UK Gilt investments, which fell -30.6% versus the benchmark return of -30.4%. The Fund's Multi-Asset Credit managers, BlueBay and M&G, had a mixed year, with the former underperforming their benchmark (-5.9% vs -1.7%) and the latter outperforming (1.9% vs -1.7%).

Investment Policy and Performance (continued)

The Fund's Alternatives exposure also had a challenging year, returning -4.1% against a benchmark return of -0.4%. The headline return belies a mixed performance picture in the alternative assets, with Commercial Property having a tough year (-12.8% vs -14.5%), and Infrastructure and Private Equity investments having a collective positive return. The Fund's investment in the Baillie Gifford Diversified Growth Fund had a very challenging year, returning -8.5% for the financial year and underperforming the benchmark return of 5.8%.

In conclusion, whilst the Fund's investment performance did not beat the benchmark for the most recent 1-year period, the Fund remains ahead of its benchmark over the 3-year period (9.7% p.a. vs 9.4% p.a.) and in line with the benchmark for the 5-year period (6.2% p.a. vs 6.2%). It is worthwhile remembering that we judge success over the longer term and expect there to be fluctuations in investment returns over shorter time periods.

Outlook

The first two sentences from the 'Outlook' section in last year's report remain accurate, and remain significant concerns when looking ahead:

'The war in Ukraine remains a worrying factor, and there is a not insignificant risk that an increasingly cornered Russia may lash out, widening the conflict in Europe. And whilst the war may have shown China how not to go about the 'reunification' of Taiwan, it could perversely be seen as a green light to attempt to do so by Beijing.'

Recent additional promises of support for Ukraine, particularly in terms of them being provided more advanced defensive weapons that can hit targets well beyond the front line, run the risk of escalation from the Russians. President Putin remains relatively isolated and cornered, with Russia showing no signs of being able to win this conflict through conventional means. Should non-conventional means be used, this would likely be calamitous for both Ukraine and the wider world.

The handling of China also remains a delicate balancing act. At the time of writing this report, the news coming out of the latest G7 meeting, being held in Hiroshima, neatly underlines the China 'problem' – which is whilst they remain a key trading part for all of the G7 economies (and indeed have helped keep inflation low for many years due to the cost of goods produced there), they are increasingly seen as a threat to global stability with their ongoing sabre-rattling over Taiwan, and the threat from their alleged theft of trade and national secrets.

The biggest challenges investors face over the coming year that are not of a geo-political nature are likely to continue to be linked to inflation, interest rates and the consequences of inflation. Whilst annual inflation is falling in the UK, the US and EU, it remains historically high - which will weigh on the minds of central bankers. As a result, meaningful interest rate reductions are unlikely to come through this year, with many commentators predicting another year of higher interest rates.

Concerns also exist over the possibility of a global recession, not helped by the lack of progress in the US to agree a deal on US Government debt. Should no agreement be reached between Republicans and Democrats to raise the 'debt ceiling' by June 1, the US would default on its \$31.4 trillion Government debt. One can only speculate how bad that would be for global financial markets, with one commentator saying that it would bring about a global recession that would make the 2008 financial crash 'look like a tea party'. It is perhaps more plausible that a deal will be reached between Democrats and Republicans to raise the debt ceiling than such a calamitous outcome, but it cannot be entirely discounted.

Whatever the political, financial and economic environments may throw our way, the Fund's investment strategy remains diversified across markets, regions and asset classes, and we remain focussed on targeting long term investment returns that meet the cost of the long term pension liabilities.

Actuarial Information

Northamptonshire Pension Fund (“the Fund”) Actuarial Statement for 2022-23

This statement has been prepared in accordance with Regulation 57(1)(d) of the Local Government Pension Scheme Regulations 2013. It has been prepared at the request of the Administering Authority of the Fund for the purpose of complying with the aforementioned regulation.

Description of Funding Policy

The funding policy is set out in the Administering Authority’s Funding Strategy Statement (FSS), dated March 2023. In summary, the key funding principles are as follows:

- take a prudent long-term view to secure the regulatory requirement for long-term solvency, with sufficient funds to pay benefits to members and their dependants
- use a balanced investment strategy to meet the regulatory requirement for long-term cost efficiency (where efficiency in this context means to minimise cash contributions from employers in the long term)
- where appropriate, ensure stable employer contribution rates
- reflect different employers’ characteristics to set their contribution rates, using a transparent funding strategy
- use reasonable measures to reduce the risk of an employer defaulting on its pension obligations
- manage the fund in line with the stated ESG policies.

The FSS sets out how the Administering Authority seeks to balance the conflicting aims of securing the solvency of the Fund and keeping employer contributions stable. For employers whose covenant was considered by the Administering Authority to be sufficiently strong, contributions have been stabilised to have a sufficiently high likelihood of achieving the funding target over 20 years. Asset-liability modelling has been carried out which demonstrate that if these contribution rates are paid and future contribution changes are constrained as set out in the FSS, there is at least a 70% likelihood that the Fund will achieve the funding target over 20 years.

Funding Position as at the last formal funding valuation

The most recent actuarial valuation carried out under Regulation 62 of the Local Government Pension Scheme Regulations 2013 was as at 31 March 2022. This valuation revealed that the Fund’s assets, which at 31 March 2022 were valued at £3,364 million, were sufficient to meet 113% of the liabilities (i.e. the present value of promised retirement benefits) accrued up to that date. The resulting surplus at the 2022 valuation was £380 million.

Each employer had contribution requirements set at the valuation, with the aim of achieving their funding target within a time horizon and likelihood measure as per the FSS. Individual employers’ contributions for the period 1 April 2023 to 31 March 2026 were set in accordance with the Fund’s funding policy as set out in its FSS.

Principal Actuarial Assumptions and Method used to value the liabilities

Full details of the methods and assumptions used are described in the 2022 valuation report.

Method

The liabilities were assessed using an accrued benefits method which takes into account pensionable membership up to the valuation date; and makes an allowance for expected future salary growth to retirement or expected earlier date of leaving pensionable membership.

Actuarial Information (continued)

Assumptions

A market-related approach was taken to valuing the liabilities, for consistency with the valuation of the Fund assets at their market value.

The key financial assumptions adopted for the 2022 valuation were as follows:

Financial Assumptions	31 March 2022
Discount Rate	4.4%
Salary increase assumption	3.2%
Benefit increase assumption(CPI)	2.7%

The key demographic assumption was the allowance made for longevity. The life expectancy assumptions are based on the Fund's VitaCurves with improvements in line with the CMI 2021 model, with a 0% weighting of 2021 (and 2020) data, standard smoothing (Sk7), initial adjustment of 0.25% and a long term rate of 1.50% p.a. Based on these assumptions, the average future life expectancies at age 65 are as follows:

	Males	Females
Current Pensioners	21.6 years	24.3 years
Future Pensioners*	22.5 years	25.8 years

*Aged 45 at the 2022 Valuation.

Copies of the 2022 valuation report and Funding Strategy Statement are available on request from the Administering Authority to the Fund to the Fund and on the Fund's website.

Experience over the period since 31 March 2022

Markets continued to be disrupted by the ongoing war in Ukraine and inflationary pressures, impacting on investment returns achieved by the Fund's assets. High levels of inflation in the UK (compared to recent experience), have resulted in a higher than expected LGPS benefit increase of 10.1% in April 2023. Despite this, the funding level of the Fund is likely to be higher than reported at the 31 March 2022 funding valuation due to the significant rise in interest rates which reduces the value placed on the Fund's liabilities.

The next actuarial valuation will be carried out as at 31 March 2025. The Funding Strategy Statement will also be reviewed at that time.

Actuarial Information (continued)

Extract from the Actuarial Valuation Report

Executive Summary

We have carried out an actuarial valuation of the Northamptonshire Pension Fund (“the Fund”) as at 31 March 2022. The results are presented in this report and are briefly summarized below.

Funding Position

The table below summarizes the financial position of the Fund at 31 March 2022 in respect of benefits earned by members up to this date (along with a comparison at the last formal valuation at 31 March 2019).

Valuation date	31 March 2019 (£m)	31 March 2022 (£m)
Past Service liabilities	2,679	2,984
Market Value of Assets	2,502	3,364
Surplus/(Deficit)	-176	380
Funding Level	93%	113%

The most significant external event to occur since the last valuation has been the Covid-19 pandemic. The impact on the funding position has been small, likely due to the age profile of the excess deaths and the level of pension.

Other significant factors occurring which affect the funding strategy of the Fund have been the better than expected investment returns. This has had a material positive impact on the funding position and employers’ secondary contribution rates.

Contribution Rates

The table below summarizes the whole fund Primary and Secondary Contribution rates at this triennial valuation. The Primary rate is the payroll weighted average of the underlying individual employer primary rates and the Secondary rate is the total of the underlying individual employer secondary rates (before any pre-payment or capitalization of future contributions), calculated in accordance with the Regulations and CIPFA guidance.

Primary Rate (% of pay)	Secondary Rate (£)		
1 April 23 – 31 March 26	2023-24	2024-25	2025-26
20.5%	£8,586,000	£8,155,000	£7,660,000

The Primary rate also includes an allowance of 0.8% of pensionable pay for the Fund’s expenses. The average employee contribution rate is 6.4% of pensionable pay.

The minimum contributions to be paid by each employer from 1 April 2023 to 31 March 2026 are shown in the Rates and Adjustment Certificate.

Notes to the Pension Fund Accounts

1. DESCRIPTION OF THE FUND

The Northamptonshire Pension Fund is part of the Local Government Pension Scheme (LGPS) and is administered by West Northamptonshire Council. The Council is the reporting entity for this Pension Fund. The following description of the Fund is a summary only. For more detail, reference should be made to the Annual Report 2022-23 and the underlying statutory powers underpinning the scheme.

General

The Fund is governed by the Public Services Pensions Act 2013. The Fund is administered in accordance with the following secondary legislation:

- the LGPS Regulations 2013 (as amended);
- the LGPS (Transitional Provisions, Savings and Amendments) Regulations 2014 (as amended);
- the LGPS (Management and Investment of Funds) Regulations 2016;
- The Local Government Pension Scheme (Amendment) Regulations 2018.

The Fund is a contributory defined benefit pension scheme administered by West Northamptonshire Council to provide pensions and other benefits for pensionable employees of West Northamptonshire Council and a range of other Scheduled and Admitted Bodies within the county area. Teachers, Police Officers and Firefighters are not included as they come within other national pension schemes. The Fund is overseen by the Northamptonshire Pension Committee, which is a committee of West Northamptonshire Council.

Membership

Membership of the LGPS is voluntary and employees are free to choose whether to join the scheme, remain in the scheme or make their own personal arrangements outside the scheme. Organisations participating in the Northamptonshire Pension Fund include:

- Scheduled bodies - local authorities and similar bodies whose staff are automatically entitled to be members of the Fund;

- Admitted bodies - other organisations that participate in the Fund under an admission agreement between the Fund and the relevant organisation. Admitted bodies include voluntary, charitable and similar bodies or private contractors undertaking a local authority function following outsourcing to the private sector.
- Resolution/Designated bodies – These are organisations that can admit their employees to the LGPS by passing their resolution (nominate employees for access to the LGPS) Parish/Town Council are under this category.

As at 31 March 2023 there are 325 (2022: 318) active employers within the Northamptonshire Pension Fund, including the Council itself.

	31-Mar-22	31-Mar-23
Number of employers with active members	318	325

The Fund has over 80,000 individual members, as detailed below:

Number of employees in scheme:	31-Mar-22	31-Mar-23
Administering Authority	5,010	5,309
Other employers	19,045	18,640
Total	24,055	23,949
Number of pensioners:		
Administering Authority	9,002	7,775
Other employers	8,703	10,639
Total	17,705	18,414
Deferred pensioners:		
Administering Authority	13,688	10,112
Other employers	10,938	17,740
Total	24,626	27,852
Undecided leavers:		
Administering Authority	3,986	2,695
Other employers	6,147	7,814
Total	10,133	10,509
Total members	76,519	80,724

Notes to the Pension Fund Accounts (continued)

Funding

Benefits are funded by contributions and investment earnings. Currently the level of contribution income is sufficient to fund regular benefit payments. Contributions are made by active members of the Fund in accordance with the LGPS Regulations 2013 and range from 5.5% to 12.5% of pensionable pay for the financial year ended 31 March 2023. Employers' contributions are set as part of the triennial actuarial funding valuation. The last such valuation was at 31 March 2022. Employers' contributions comprise a percentage rate on active payroll between 1.2% and 35.2% and deficit payments of fixed cash amounts set for each employer as part of the triennial funding valuation.

Benefits

Prior to 1 April 2014, pension benefits under the LGPS were based on final pensionable pay and length of pensionable service, summarised below:

	Service pre 1 April 2008	Service 1 April 2008 to 31 March 2014
Pension	Each year worked is worth 1/80 x final pensionable salary.	Each year worked is worth 1/60 x final pensionable salary.
Lump Sum	Automatic lump sum of 3 x pension. In addition, part of the annual pension can be exchanged for a one-off tax-free cash payment. A lump sum of £12 is paid for each £1 of pension given up.	No automatic lump sum. Part of the annual pension can be exchanged for a one-off tax-free cash payment. A lump sum of £12 is paid for each £1 of pension given up.

Career Average Revalued Earnings (CARE)

From 1 April 2014, the scheme became a career average scheme, whereby members accrue benefits based upon their pensionable pay in that year at an accrual rate of 1/49th or 1/98th for those members who have taken up the 50/50 option and pay proportionately lower contributions. Accrued pension is updated annually in line with the Consumer Price Index.

There are a range of other benefits provided under the scheme including early retirement, ill health pensions and death benefits. For more details, please refer to the Full Guide which can be found in the member section on the Pension's Fund website. [Member - Pension Details](#)

2. BASIS OF PREPARATION

The statement of accounts summarises the fund's transactions for the 2022-23 financial year and its financial position at 31 March 2023. The accounts have been prepared in accordance with the *Code of Practice on Local Authority Accounting in the United Kingdom 2022-23* (the Code), which is based upon International Financial Reporting Standards (IFRS), as amended for the UK public sector. The accounts have been prepared on a going concern basis.

The accounts report on the net assets available to pay pension benefits. They do not take account of obligations to pay pensions and benefits that fall due after the end of the financial year nor do they take into account the actuarial present value of promised retirement benefits. The Code gives administering authorities the option to disclose this information in the net assets statement, in the notes to the accounts or by appending an actuarial report prepared for this purpose. The pension fund has opted to disclose this information in Note 20.

Notes to the Pension Fund Accounts (continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Account – Revenue Recognition

Contribution Income

Normal contributions, both from the members and from the employer, are accounted for on an accruals basis at the percentage rate recommended by the actuary in the payroll period to which they relate. Employer deficit funding contributions are accounted for on the due date on which they are payable under the schedule of contributions set by the scheme actuary or on receipt if earlier than the due date. Employers' augmentation contributions and pensions strain contributions are accounted for in the period in which the liability arises. Any amount due in the year but unpaid will be classed as a current financial asset.

Transfers to and from Other Schemes

Transfer values represent the amounts received and paid during the year for members who have either joined or left the Fund during the financial year and are calculated in accordance with the Local Government Pension Scheme Regulations (see Notes 8 and 10).

Individual transfers in/out are accounted for on a cash basis.

Transfers in from members wishing to use the proceeds of their additional voluntary contributions (see page 80) to purchase scheme benefits are accounted for on an accruals basis and are included in Transfers In (see Note 8). Bulk (group) transfers are accounted for on an accruals basis in accordance with the terms of the transfer agreement. There have been no group transfers in during 2021-22 and 2022-23.

Investment Income

i) Interest income

Interest income is recognised in the Fund Account as it accrues, using the effective interest rate of the financial instrument as at the date of acquisition or origination. Income includes the amortisation of any discount or premium, transaction costs (where material) or other differences between the initial carrying amount of the instrument and its amount at maturity calculated on an effective interest rate basis.

ii) Dividend income

Dividend income is recognised on the date the shares are quoted ex-dividend. Any amount not received by the end of the reporting period is disclosed in the Net Asset Statement as a current financial asset.

iii) Distributions from pooled funds

Distributions from pooled funds are recognised at the date of issue. Any amount not received by the end of the reporting period is disclosed in the Net Asset Statement as a current financial asset.

iv) Movement in the net market value of investments

Changes in the net market value of investments are recognised as income or expense and comprise all realised and unrealised profits/losses during the year.

Fund Account – Expense Items

Benefits Payable

Pensions and lump sum benefits payable include all amounts known to be due as at the end of the financial year. Any amounts due but unpaid are disclosed in the Net Asset Statement as current liabilities and paid in the following month.

Taxation

The Fund is a registered public service scheme under section 1(1) of Schedule 36 of the Finance Act 2004 and as such is exempt from UK income tax on interest received and from capital gains tax on the proceeds of investments sold. Income from overseas investments suffers withholding tax in the country of origin, unless exemption is permitted. Irrecoverable tax is accounted for as a Fund expense as it arises.

Notes to the Pension Fund Accounts (continued)

Management Expenses

The Code does not require any breakdown of pension fund administrative expenses. However, in the interests of greater transparency, the Fund discloses its pension fund management expenses in accordance with CIPFA's Accounting for Local Government Pension Scheme Management Expenses (2016).

Administrative Expenses

All administrative expenses are accounted for on an accruals basis. All staff costs of the pension's team are charged to the Fund. Associated management, accommodation and other overheads are apportioned to this activity and charged as expenses to the Fund in accordance with Council policy.

Oversight and Governance Costs

All oversight and governance expenses are accounted for on an accruals basis. The costs of obtaining legal and consultancy advice are charged direct to the Fund. The cost of the Pool are charged direct to the Fund.

Investment Management Expenses

Investment Management expenses are accounted for on an accruals basis.

Fees of external Investment Managers and the Custodian are agreed in the respective mandates governing their appointments. Broadly, these are based on the market value of the investments under their management and therefore increase or reduce as the value of these investments change.

Where an Investment Manager's fee note has not been received by the year end date, an estimate based upon the market value of their mandate as at the end of the year is used for inclusion in the Fund Account. In 2022-23, £107K of fees are based upon such estimates (2021-22: £ 0.1m). In addition, manager fees deducted from pooled funds of £12.9m (2021-22: £12.5m) are based upon information received from fund managers.

Net Asset Statement

Financial Assets

Financial assets are included in the Net Asset Statement on a fair value basis, except for assets held at amortised cost.

Assets held at amortised cost includes contributions owing from employers and cash deposits. These are initially recognised at fair value and subsequently measured at amortised cost. A financial asset is recognised in the Net Asset Statement on the date the Fund becomes party to the contractual acquisition of the asset.

Investment assets, other than cash held by Investment Managers on the Fund's behalf, are initially recognised at fair value and are subsequently measured at fair value with gains and losses recognised in the Fund Account. The values of investments as shown in the Net Asset Statement have been determined at fair value in accordance with the requirements of the Code and IFRS13 (see Note 16). For the purposes of disclosing levels of fair value hierarchy, the Fund has adopted the classification guidelines recommended in Practical Guidance on Investment Disclosures (PRAG/Investment Association, 2016).

Foreign Currency Transactions

Dividends, interest and purchases and sales of investments in foreign currencies have been accounted for at the spot market rates at the date of transaction. End-of-year spot market exchange rates are used to value cash balances held in foreign currency bank accounts, market values of overseas investments and purchases and sales outstanding at the end of the reporting period.

Notes to the Pension Fund Accounts (continued)

Derivatives

The Fund uses derivative financial instruments to manage its exposure to specific risks arising from its investment activities. The Fund does not hold derivatives for speculative purposes (see Note 15). Purchases and sales of derivatives are recognised as follows:

Forward currency contracts settlements are reported as gross receipts and payments.

Cash and Cash Equivalents

Cash comprises cash in hand and demand deposits held by the Fund and the Fund's external managers.

Cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Financial Liabilities

The Fund initially recognises financial liabilities at fair value and subsequently measures them at amortised cost. A financial liability is recognised in the Net Asset Statement on the date the Fund becomes party to the liability.

Actuarial Present Value of Promised Retirement Benefits

The actuarial present value of promised retirement benefits is assessed on an annual basis by the scheme actuary in accordance with the requirements of IAS 19 and relevant actuarial standards. As permitted under the Code, the Fund has opted to disclose the actuarial present value of promised retirement benefits by way of a note to the Net Asset Statement (see Note 20).

Additional Voluntary Contributions

The Fund provides an additional voluntary contributions (AVC) scheme for its members, the assets of which are invested separately from those of the Pension Fund. The Fund's AVC providers are Prudential and Standard Life. AVCs are deducted from the individual member's pay and paid to the AVC

provider by employers and are specifically for providing additional benefits for individual contributors. Each AVC contributor receives an annual statement showing the amount held in their account and the movements in the year.

AVCs are not included in the accounts, in accordance with section 4(1)(b) of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2016, but are disclosed as a note only (see Note 23).

Contingent Assets and Liabilities

A contingent asset arises where an event has taken place giving rise to a possible asset whose existence will only be confirmed or otherwise by the occurrence of future events.

A contingent liability arises where an event has taken place prior to the year-end giving rise to a possible financial obligation whose existence will only be confirmed or otherwise by the occurrence of future events. Contingent liabilities can also arise in circumstances where a provision would be made, except that it is not possible at the balance sheet date to measure the value of the financial obligation reliably.

Contingent assets and liabilities are not recognised in the Net Asset Statement but are disclosed by way of a narrative in the notes.

Notes to the Pension Fund Accounts (continued)

4. CRITICAL JUDGEMENT IN APPLYING ACCOUNTING POLICIES

It has not been necessary to make any material critical judgements in applying the accounting policies in 2022-23.

5. ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities at the Balance Sheet date and the amounts reported for the revenues and expenses during the year.

Estimates and assumptions are made taking into account historical experience, current trends and other relevant factors. However, the nature of estimation means that the actual outcomes could differ from the assumptions and estimates.

The items in the Financial Statements as 31 March 2023 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Pension Fund Liability

The net Pension Fund liability is recalculated every three years by the appointed actuary, with annual updates in the intervening years. The methodology used is in line with accepted guidelines.

The estimated liability is subject to significant variances based on changes to the underlying assumptions which are agreed with the actuary and have been summarised in Note 19 (disclosure only).

Actuarial revaluations are used to set future contribution rates and underpin the Fund's most significant Investment Management policies, for example in terms of the balance struck between longer term investment growth and short-term investment yield/return.

Actuarial Present Value of Promised Retirement Benefits

In addition to the triennial funding valuation, the Fund's actuary also undertakes a valuation of the Pension Fund liabilities, on an IAS 19 basis, every year using the same base data as the funding valuation rolled forward to the current financial year, taking account of changes in membership numbers and updating assumptions to the current year.

- **Uncertainties:** Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rates at which salaries and pensions are projected to increase, changes in retirement ages, mortality rates and expected returns on Pension Fund assets. An independent firm of consulting actuaries is engaged to provide the Fund with expert advice about the assumptions to be applied. The actuary has included the McCloud judgement within their calculation shown in Note 20 (disclosure only).
- **Effect if Actual Results Differ from Assumptions:** The effects on the net pension liability of changes in individual assumptions can be measured. For instance, a 0.1% decrease in the discount rate assumption would result in an increase in the pension liability of £57m. A 0.1% increase in assumed earnings inflation would increase the value of liabilities by approximately £4m, and a 1 year increase in assumed life expectancy would increase the liabilities by approximately £125m.

Notes to the Pension Fund Accounts (continued)

Private Equity

- **Uncertainties:** All private equity investments are valued at fair value. These investments are not publicly listed and as such there is a degree of estimation involved in the valuation. See Note 16a.
- **Effect if Actual Results Differ from Assumptions:** Total private equity investments at fair value in the financial statements are £243.0m. There is a risk that this investment may be under or overstated in the accounts. Note 18 gives a price sensitivity of Private Equity of 31.2%, which indicates that private equity values may range from £167.2m to £318.8m.

Infrastructure

- **Uncertainties:** All infrastructure investments are valued at fair value. These investments are not publicly listed and as such there is a degree of estimation involved in the valuation. See Note 16a.
- **Effect if Actual Results Differ from Assumptions:** Total infrastructure investments at fair value in the financial statements are £222.2m. There is a risk that this investment may be under or overstated in the accounts. Note 18 gives a price sensitivity infrastructure investments of 14.7%, which indicates that infrastructure values may range from £189.5m to £254.8m.

Property

- **Uncertainties:** Valuation techniques are used to determine the carrying amount of pooled property funds. Where possible management uses the best available data. Uncertainties including changes in rental growth, covenant strength for existing tenancies, discount rate could affect the fair value of the property investments.
- **Effect if Actual Results Differ from Assumptions:** Total property investments in the financial statements are £201.1m. There is a risk that

this investment may be under or overstated in the accounts. Note 18 gives a price sensitivity pooled property investments of 15.5%, which indicates that infrastructure values may range from £170.0m to £232.3m

6. EVENTS AFTER THE BALANCE SHEET DATE

There have been no events since 31 March 2023, and up to the date when these accounts were authorised that require any adjustments to these accounts.

7. CONTRIBUTIONS RECEIVABLE

By category:

31-Mar-22		31-Mar-23

15. ANALYSIS OF DERIVATIVES

Objectives and Policies for Holding Derivatives

Most of the holding in derivatives is to hedge liabilities or hedge exposures to reduce risk in the Fund. Derivatives may be used to gain exposure to an asset more efficiently than holding the underlying asset. The use of derivatives is managed in line with the Investment Management agreement agreed between the Fund and the various Investment Managers.

• Futures

There were no outstanding exchange traded future contracts at 31 March 2023 or 31 March 2022.

• Options

There were no outstanding option contracts at 31 March 2023 or 31 March 2022.

• Forward foreign currency

To maintain appropriate diversification and to take advantage of overseas investment returns, a significant proportion of the Fund's quoted equity portfolio is in overseas stock markets. To reduce the volatility associated with fluctuating currency rates, the Fund has a passive currency programme in place managed by the Fund managers.

There is no specified requirement to use currency hedging within the Fund's Investment Management Agreements. Instead, the Fund managers use their discretion as to whether any currency hedging should be used to mitigate any potential risk.

Settlement	Currency bought	Local Value	Currency sold	Local Value	Asset Value	Liability Value
		Currency		Currency		
One to six months	GBP	43,695	EUR	-49,675	0	0
Total					0	0

Prior year comparative						
Open forward currency contracts at 31 March 2022						0
Net forward currency contracts at 31 March 2022						0

Notes to the Pension Fund Accounts (continued)

16. FAIR VALUE

Valuation of Financial Instruments Carried at Fair Value

Asset and liability valuations have been classified into three levels, according to the quality and reliability of information used to determine fair values. Transfers between levels are recognised in the year in which they occur. The Fund has adopted the classification guidelines recommended in the Practical Guidelines on Investment Disclosures (PRAG/Investment Association, 2016).

Level 1 Assets and liabilities at Level 1 are those where the fair values are derived from unadjusted quoted prices in active markets for identical assets or liabilities. Products classified as level 1 comprise quoted equities, quoted fixed securities, quoted index-linked securities and unit trusts.

Level 2 Assets and liabilities at Level 2 are those where quoted market prices are not available; for example, where an instrument is traded in a market that is not considered to be active, or where valuation techniques are used to determine fair value. The price used is based upon inputs from observable market data.

Level 3 Assets and liabilities at Level 3 are those where at least one input that could have a significant effect on the instrument's valuation is not based on observable market data.

The values of the investment in private equity are based on valuations provided by the general partners to the private equity funds in which the Northamptonshire Fund has invested. These valuations are prepared in accordance with the International Private Equity and Venture Capital Valuation Guidelines 2022, which follow the valuation principles of IFRS and US GAAP. Valuations are usually undertaken annually at the end of December. Cash flow adjustments are used to roll forward the valuations to 31 March as appropriate.

16(a). FAIR VALUE HIERARCHY

The following tables provides an analysis of the financial assets at fair value through profit and loss of the Pension Fund grouped into levels 1 to 3, based on the level at which the fair value is observable:

Values at March 2023	Level 1	Level 2	Level 3	Total
Financial assets at fair value through profit and loss	£000	£000	£000	£000
Pooled investments	2,210	2,532,022	0	2,534,232
Pooled property investments	0	0	201,130	201,130
Private equity	0	0	242,990	242,990
Infrastructure	0	0	222,154	222,154
Cash and Cash Equivalents	33,339	0	0	33,339
Net investment assets	35,549	2,532,022	666,274	3,233,845

Values at March 2022	Level 1	Level 2	Level 3	Total
Financial assets at fair value through profit and loss	£000	£000	£000	£000
Pooled investments	217	2,681,725	0	2,681,942
Pooled property investments	0	0	249,167	249,167
Private equity	0	0	187,426	187,426
Infrastructure	0	0	201,861	201,861
Cash and Cash Equivalents	36,327	0	0	36,327
Net investment assets	36,544	2,681,725	638,454	3,356,723

Notes to the Pension Fund Accounts (continued)

All assets have been valued using fair value techniques which represent the highest and best price at the reporting date. The fair valuation of each class of investment asset is set out below.

Description of asset	Valuation hierarchy	Basis of valuation	Observable and unobservable inputs	Key sensitivities affecting the valuations provided
Cash and cash equivalents	Level 1	Carrying value is deemed to be fair value because of the short-term nature of these financial instruments	Not required	Not required
Pooled Investments	Level 2	Net Asset Value / Bid Market Price.	Evaluated price feeds	Not required
Pooled Investments	Level 2	Average of broker prices.	Evaluated price feeds	Not required
Forward Foreign exchange derivatives	Level 2	Market forward exchange rates at theyear-end	Exchange rate risk	Not required
Property	Level 3	Valued by investment managers on a fair value basis each year using PRAG guidance	NAV-based pricing set on a forward pricing basis	Valuations could be affected by changes to expected cashflows or by differences between audited and unaudited accounts
Private Equity	Level 3	Comparable valuation of similar companies in accordance with International Private Equity and Venture Capital Valuation Guidelines 2018 and the IPEV Board's Special Valuation Guidance (March 2020)	Price Earnings or EBITDA multiple	Valuations could be affected by changes to expected cashflows or by differences between audited and unaudited accounts
Infrastructure	Level 3	Comparable valuation of similar companies in accordance with International Private Equity and Venture Capital Valuation Guidelines 2022 and the IPEV Board's Special Valuation Guidance (March 2020)	Price Earnings or EBITDA multiple	Valuations could be affected by changes to expected cashflows or by differences between audited and unaudited accounts

Notes to the Pension Fund Accounts (continued)

Sensitivity of assets valued at Level 3

Having analysed historical data and current market trends, and consulted with Independent Investment Advisors, the Fund has determined that the valuation methods described above are likely to be accurate within the following ranges and has set out below the consequent potential impact on the closing value of investments held at 31 March 2023.

Asset Type	Market Value as at 31-Mar-23	Assessed valuation range % (+/-)	Value on Increase	Value on Decrease
	£000		£000	£000
Private equity	242,990	31.2	318,803	167,177
Infrastructure	222,154	14.7	254,811	189,497
Property funds	201,130	15.5	232,305	169,955
Total Assets	666,274		805,919	526,629

16(b). RECONCILIATION OF FAIR VALUE MEASUREMENTS WITHIN LEVEL 3

Period 2022-23	Market value 01- Apr-22	Purchases during the year and derivative payments	Sales during the year and derivative receipts	Unrealised gains/(losses)	Realised gains/(losses)	Market value 31-Mar-23
	£000	£000	£000	£000	£000	£000

1	Fair Value through profit and loss	-2
-48	Loans and receivables	-78
229,429	Total gains/(losses)	-166,048

18. NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

Risk and Risk Management

The Fund's primary long-term risk is that the Fund's assets will fall short of its liabilities (i.e. promised benefits payable to members). Therefore, the aim of investment risk management is to minimise the risk of an overall reduction in the value of the Fund and to maximise the opportunity for gains across the whole Fund portfolio. The Fund achieves this through asset diversification to reduce exposure to market risk (price risk, currency risk and interest rate risk) and credit risk to an acceptable level. In addition, the Fund manages its liquidity risk to ensure there is sufficient liquidity to meet the Fund's forecast cash flows. The Fund manages these investment risks as part of its overall Pension Fund Risk Management Programme.

[Risk Strategy Statement](#)

Responsibility for the Fund's Risk Management Strategy rests with the Pensions Committee. Risk management policies are established to identify and analyse the risks faced by the Council's pensions operations. Policies are reviewed regularly to reflect changes in activity and in market conditions.

a) Market Risk

Market risk is the risk of loss from fluctuations in equity and commodity prices, interest and foreign exchange rates and credit spreads. The Fund is exposed through its equity holdings. The level of risk exposure depends on market conditions, expectations of future price and yield movements and the asset mix.

The objective of the Fund's Risk Management Strategy is to identify, manage and control market risk exposure within acceptable parameters, whilst optimising the return on risk.

In general, excessive volatility in market risk is managed through the diversification of the portfolio in terms of geographical and industry sectors and individual securities. To mitigate market risk, the Council and its investment Advisors undertake appropriate monitoring of market conditions and benchmark analysis.

The Fund manages these risks in two ways:

- the exposure of the Fund to market risk is monitored through a factor risk analysis, to ensure that risk remains within tolerable levels
- specific risk exposure is limited by applying risk-weighted maximum exposures to individual investments.

Equity futures contracts and exchange traded option contracts on individual securities may also be used to manage market risk on equity investments. It is possible for over-the-counter equity derivative contracts to be used in exceptional circumstances to manage specific aspects of market risk.

Notes to the Pension Fund Accounts (continued)

Other Price Risk

Other price risk represents the risk that the value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or foreign exchange risk), whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all such instruments in the market.

The Fund is exposed to share and derivative price risk. This arises from investments held by the Fund for which the future price is uncertain. All securities investments present a risk of loss of capital. Except for shares sold short, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments.

The Fund's Investment Managers mitigate this price risk through diversification and the selection of securities and other financial instruments is monitored by the Council to ensure it is within limits specified in the Fund Investment Strategy.

Other Price Risk – Sensitivity Analysis

Following analysis of historical data and expected investment return movement during the financial year in consultation with the Fund's investment Advisors, the Council has determined that the following movements in market price risk would have reasonably been possible for the 2022-23 reporting period. The potential price changes disclosed above are broadly consistent with one-standard deviation movement in the value of the assets. The sensitivities are consistent with the assumptions contained in the investment Advisors most recent review. This analysis assumes that all other variables, in particular foreign currency exchange rates and interest rates, remain the same.

Asset Type	Potential Market Movement +/- (%p.a.)
UK pooled equities	18.2
Global pooled equities	19.0
Index linked bonds	7.2
Multi asset credit	7.8
Diversified growth	8.9
Property	15.5
Private Equity	31.2
Infrastructure	14.7
Cash and other investment balances	0.3

Notes to the Pension Fund Accounts (continued)

Had the market price of the fund investments increased/decreased in line with the above, the change in the net assets available to pay benefits would have been as follows:

31-Mar-23	Value as at	% (rounded)	Value on	Value on
Asset Type	31-Mar-23	Change	Increase	Decrease
	£000		£000	£000
UK pooled equities	329,402	18.2	389,353	269,451
Global pooled equities	1,420,172	19.0	1,690,005	1,150,339
Index linked bonds	268,056	7.2	287,356	248,756
Multi asset credit	311,629	7.8	335,936	287,322
Diversified growth	202,763	8.9	220,809	184,717
Property	201,130	15.5	232,305	169,955
Private Equity	242,990	31.2	318,803	167,177
Infrastructure	222,154	14.7	254,811	189,497
Cash and other investment balances	35,864	0.3	35,972	35,756
Total Assets	3,234,160		3,765,350	2,702,970

31-Mar-22	Value as at	% (rounded)	Value on	Value on
Asset Type	31-Mar-22	Change	Increase	Decrease
	£000		£000	£000
UK pooled equities	321,249	19.9	385,178	257,320
Global pooled equities	1,499,989	20.1	1,801,487	1,198,491
Index linked bonds	327,080	7.3	350,957	303,203
Multi asset credit	311,757	7.4	334,827	288,687
Diversified growth	221,650	9.1	241,820	201,480
Property	249,167	15.0	286,542	211,792
Private Equity	187,426	31.2	245,903	128,949

Cash and other investment balances	34,579	0.3	34,683	34,475
Total Assets	3,354,758		3,910,106	2,799,410

Notes to the Pension Fund Accounts (continued)

Interest Rate Risk

The Fund invests in financial assets for the primary purpose of obtaining a return on investments. These investments are subject to interest rate risks, which represent the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Fund's interest rate risk is routinely monitored by the Council and its investment consultant in accordance with the Fund's Risk Management strategy, including monitoring the exposure to interest rates and assessment of actual interest rates against the relevant benchmarks. The Fund's direct exposure to interest rate movements as at 31 March 2023 and 31 March 2022 is set out below. These disclosures present interest rate risk based on the underlying financial assets at fair value.

Interest Rate Risk Sensitivity Analysis

The Council recognises that interest rates can vary and can affect both income to the Fund and the value of the net assets available to pay benefits. An 80 basis point (BPS) (i.e. 0.80%) movement in interest rates is consistent with the level of sensitivity applied as part of the Fund's Risk Management strategy. The Fund's investment consultant has advised that long-term average rates are expected to move less than 80 basis points from one year to the next and experience suggests that such movements are likely. The analysis that follows assumes that all other variables, in particular exchange rates, remain constant, and shows the effect in the year on the net assets available to pay benefits of a +/- 100 BPS (1.0%) change in interest rates:

31-Mar-22 Asset Type £000	31-Mar-23 £000
327,080 Index linked bonds	268,056
311,757 Multi asset credit	311,629
638,837 Total	579,685

Exposure to interest rate risk	Asset values at 31-Mar-23 £000	Impact of 1% decrease £000	Impact of 1% increase £000
Index linked bonds	268,056	270,737	265,375
Multi asset credit	311,629	314,745	308,513
Total change in assets available	579,685	585,482	573,888

Exposure to interest rate risk	Asset values at 31-Mar-22 £000	Impact of 1% decrease £000	Impact of 1% increase £000
Index-linked securities	327,080	330,351	323,809
Multi asset credit	311,757	314,875	308,639
Total change in assets available	638,837	645,226	632,448

Notes to the Pension Fund Accounts (continued)

Exposure to interest rate risk	Interest receivable	Value on 1% increase	Value on 1% decrease
	2022-23		
	£000	£000	£000
Cash deposits, cash and cash equivalents	947	956	938
Multi asset credit	3,020	3,050	2,990
Total	3,967	4,006	3,928

Exposure to interest rate risk	Interest receivable	Value on 1% increase	Value on 1% decrease
	2021-22		
	£000	£000	£000
Cash deposits, cash and cash equivalents	19	19	19
Multi asset credit	5,459	5,514	5,404
Total	5,478	5,533	5,423

This analysis demonstrates that a 1% increase in interest rates will not affect the interest received on fixed interest assets but will reduce their fair value, and vice versa. Changes in interest rates do not impact on the value of cash and cash equivalent balances but they will affect the interest income received on those balances. Changes to both the fair value of the assets and the income received from investments impact on the net assets available to pay benefits.

Currency Risk

Currency risk represents the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund is exposed to currency risk on financial instruments that are denominated in any currency other than the functional currency of the Fund (GBP). The Fund holds both monetary and non-monetary assets denominated in currencies other than GBP.

The Fund's currency rate risk is routinely monitored by the Investment Sub Committee and its Investment Advisors in accordance with the Fund's Risk Management Strategy, including monitoring the range of exposure to currency fluctuations.

The Fund has partially hedged the currency exposures on its equity investments by transferring into currency hedged share classes of its passive equity funds.

Notes to the Pension Fund Accounts (continued)

Currency Risk – Sensitivity Analysis

Following analysis of historical data with the Fund’s Advisors, the Council considers the likely volatility associated with foreign exchange rate movements to be 9.9% (the 1 year expected standard deviation). A 9.9% (31 March 2022: 9.5%) fluctuation in the currency is considered reasonable based on the Fund Advisors analysis of long-term historical movements in the month-end exchange rates over a rolling 36 month period. This analysis assumes that all other variables, in particular interest rates, remain constant. A 9.9% strengthening/weakening of the pound against the various currencies in which the fund holds investments would decrease/increase the net assets available to pay benefits as follows.

Assets exposed to currency risk	Value at 31-Mar-23 £000	Potential market movement £000	Value on increase £000	Value on decrease £000
Overseas equities - hedged	234,102	0	234,102	234,102
Overseas equities - unhedged	1,186,070	117,421	1,303,491	1,068,649
Overseas fixed income	147,905	14,643	162,548	133,262
Overseas cash fund	2,210	219	2,429	1,991
Total	1,570,287	132,282	1,702,569	1,438,005

Assets exposed to currency risk	Value at 31-Mar-22 £000	Potential market movement £000	Value on increase £000	Value on decrease £000
Overseas equities - hedged	259,145	0	259,145	259,145
Overseas equities - unhedged	1,240,844	117,880	1,358,724	1,122,964
Overseas fixed income	157,117	14,926	172,043	142,191
Overseas cash fund	217	21	238	196
Total	1,657,323	132,827	1,790,150	1,524,496

b) Credit Risk

Credit risk represents the risk that the counterparty to a transaction or a financial instrument will fail to discharge an obligation and cause the Fund to incur a financial loss. The market values of investments generally reflect an assessment of credit in their pricing and consequently the risk of loss is implicitly provided for in the carrying value of the Fund’s financial assets and liabilities. In essence the Fund’s entire investment portfolio is exposed to some form of credit risk, with the exception of the derivatives positions, where the risk equates to the net market value of a positive derivative position. However, the selection of high quality counterparties, brokers and financial institutions minimises credit risk that may occur through the failure to settle a transaction in a timely manner.

Notes to the Pension Fund Accounts (continued)

Contractual credit risk is represented by the net payment or receipts that remains outstanding, and the cost of replacing the derivative position in the event of a counterparty default. The residual risk is minimal due to the various insurance policies held by the exchanges to cover defaulting counterparties.

Credit risk on over-the-counter derivative contracts is minimised as counterparties are recognised financial intermediaries with acceptable credit ratings determined by a recognized rating agency, Standard & Poor's. Deposits are not made with banks and financial institutions unless they are rated independently and meet the Council's credit criteria. The Council has also set limits as to the maximum percentage of the deposits placed with any one class of financial institution.

The Council believes it has managed its exposure to credit risk and has had no experience of default or uncollectible deposits over the past five financial years. The Fund's cash holding under its treasury management arrangements at 31 March 2023 was £47.4m (31 March 2022: £45.0m). This was held with the following institutions:-

	Rating	31-Mar-22 £000	31-Mar-23 £000
Money market funds			
Northern Trust Global Investors Global Cash Fund	AAAm	36,327	33,295
Bank deposit account			
Barclays Bank	A-1	8,659	14,109
Bank current accounts			
Northern Trust custody accounts	A-1+	47	44
Total		45,033	47,448

c) Liquidity Risk

Liquidity risk represents the risk that the Fund will not be able to meet its financial obligations as they fall due. The Fund therefore takes steps to ensure that it has adequate cash resources to meet its commitments. This will particularly be the case for cash from the cash flow matching mandates from the main investment strategy to meet the pensioner payroll costs and also cash to meet investment commitments.

The Fund has immediate access to its cash holdings, with the exception of holdings that are for a fixed term when the deposit is placed. The Fund defines liquid assets as assets that can be converted to cash within three months. Illiquid assets are those assets which will take longer than three months to convert in to cash. As at 31 March 2023 the value of illiquid assets was £666.3m, which represented 20.5% of the total Fund assets (31 March 2022: £638.5m, which represented 19.0% of the total Fund assets).

Management prepares periodic cash flow forecasts to understand and manage the timing of the Fund's cash flows. The appropriate strategic level of cash balances to be held forms part of the Fund Investment Strategy. All financial liabilities at 31 March 2023 are due within one year.

d) Refinancing Risk

A key risk for a Pension Fund is that it may be bound to replenish a significant proportion of its Pension Fund financial instruments at a time of unfavourable interest rates. The Fund does not have any financial instruments that have a refinancing risk as part of its Investment Strategy.

Notes to the Pension Fund Accounts (continued)

19. FUNDING ARRANGEMENTS

In line with the Local Government Pension Scheme Regulations 2013, the Fund's actuary undertakes a funding valuation every three years for the purpose of setting employer contribution rates for the forthcoming triennial period. The last such valuation took place as at 31 March 2022. The next valuation will take place as at 31 March 2025 and will be published in 2026.

The key elements of the funding policy are:

- to ensure the long-term solvency of the Fund, i.e. that sufficient funds are available to meet all pension liabilities as they fall due for payment;
- to ensure that employer contribution rates are as stable as possible;
- to minimise the long-term cost of the scheme by recognising the link between assets and liabilities and adopting an investment strategy that balances risk and return;
- to reflect the different characteristics of employing bodies in determining contribution rates where the Administering Authority considers it reasonable to do so;
- to use reasonable measures to reduce the risk to other employers and ultimately to the council tax payer from an employer defaulting on its pension obligations.

The aim is to achieve 100% solvency over a maximum period of 20 years and to provide stability in employer contribution rates by spreading any increases in rates over a period of time. Solvency is achieved when the funds held, plus future expected investment returns and future contributions are sufficient to meet expected future pension benefits payable. Where an employer's funding level is less than 100%, a deficit recovery plan is put in place requiring additional contributions from the employer to meet the shortfall.

At the 2022 actuarial valuation, the Fund was assessed as 113% funded (93% at the March 2019 valuation). This corresponded to a surplus of £380m (2019 valuation: deficit of £176m) at that time.

The Contribution Objective is achieved by setting employer contributions which are likely to be sufficient to meet both the cost of new benefits accruing and to address any funding deficit relative to the funding target over the agreed time horizon. A secondary objective is to maintain where possible relatively stable employer contribution rates.

For each employer in the Fund, to meet the Contribution Objective, a primary contribution rate has been calculated in order to fund the cost of new benefits accruing in the Fund. Additionally, if required, a secondary contribution rate has also been calculated to target a fully funded position within the employer's set time horizon.

The table below summarizes the whole fund Primary and Secondary Contribution rates at the 2022 triennial valuation. These rates are the payroll weighted average of the underlying individual employer primary and secondary rates, calculated in accordance with the Regulations and CIPFA guidance.

Primary Rate %	Secondary Rate		
1 April 2023 to 31 March 2026: 20.5%	2023-24: £8,586,000	2024-25: £8,155,000	2025-26: £7,660,000

The Primary rate above includes an allowance of 0.8% of pensionable pay for the Fund's expenses. The average employee contribution rate is 6.3% of pensionable pay. Full details of the contribution rates payable can be found in the 2022 actuarial valuation report and the funding strategy statement on the Fund's website.

Notes to the Pension Fund Accounts (continued)

Basis of Valuation

The valuation of the Fund has been undertaken using the projected unit method under which the salary increase for each member is assumed to increase until they leave active service by death, retirement or withdrawal from service. The principal assumptions were:

Financial Assumptions

A summary of the main financial assumptions adopted for the valuation of members' benefits are shown below.

Assumption	31-Mar-19	31-Mar-22
Price Inflation (CPI)/ Pension increases	2.3%	2.7%
Pay increases	2.8%	3.2%
Discount rate	3.9%	4.4%

Allowance for the McCloud remedy has been included for this expected benefit change at the 2022 valuation as directed by the Department of Levelling Up, Housing and Communities.

Mortality Assumptions

Future life expectancy based on the actuary's fund-specific mortality review was:

Assumed life expectancy at age 65	Active and Deferred Members		Current Pensioners	
	Male	Female	Male	Female
2019 valuation	22.3	25.1	21.5	23.7
2022 valuation	22.5	25.8	21.6	24.3

Note that the figures for active and deferred members assume that they are aged 45 at the valuation date.

Various scaling factors have been applied to the mortality tables to reflect the predicted longevity for each class of member and their dependents.

Other Demographic Valuation Assumptions:

a) Retirements in ill-health - Allowance has been made for ill-health retirements before normal pension age.

b) Withdrawals - Allowance has been made for withdrawals from service.

c) Retirements age- The earliest age at which a member can retire with their benefits unreduced.

d) Death in Service - Allowance has been made for death in service.

e) Promotional salary increases - Allowance has been made for promotional salary increases.

f) Proportion married - A varying proportion of members are assumed to have a dependant at retirement or on earlier death. For example, at age 60 this is assumed to be 90% for males and 85% for females. The dependant of a male member is assumed to be 3 years younger than him and the dependant of a female member is assumed to be 3 years older than her.

g) Commutation - 55% of future retirements elect to exchange pension for additional tax free cash up to HMRC limits.

h) 50:50 option - 1.0% of members (uniformly distributed across the age, service and salary range) will choose the 50:50 option.

Notes to the Pension Fund Accounts (continued)

20. ACTUARIAL PRESENT VALUE OF PROMISED RETIREMENT BENEFITS

In addition to the triennial funding valuation, the Fund's actuary also undertakes a valuation of the Pension Fund liabilities, on an IAS 19 basis, every year using the same base data as the funding valuation rolled forward to the current financial year, taking account of changes in membership numbers and updating assumptions to the current year.

In order to assess the value of the benefits on this basis, the Actuary has updated the actuarial assumptions (set out below) from those used for funding purposes (see Note 19). The actuary has also used valued ill health and death benefits in line with IAS 19.

31-Mar-22		31-Mar-23
£m		£m
-4,373	Present value of promised retirement benefits	-3,136
3,368	Fair value of scheme assets (bid value)	3,249
-1,005	Net liability	113

As noted above, the liabilities are calculated on an IAS 19 basis and therefore will differ from the results of the 2022 triennial funding valuation (see Note 19) because IAS 19 stipulates a discount rate rather than a rate which reflects market rates.

Assumptions Used

31-Mar-22	Assumption	31-Mar-23
% p.a.		% p.a.
3.20	Inflation/pension increase rate assumption	2.95
3.70	Salary increase rate	3.45
2.70	Discount rate	4.75

Notes to the Pension Fund Accounts (continued)

21. CURRENT ASSETS

31-Mar-22	31-Mar-23
£000	£000
Debtors:	
2,044 Contributions due – members	1,850
6,286 Contributions due – employers	5,505
1,575 Other debtors	170
9,905	7,525
8,659 Cash balances	14,109
8,659	14,109
18,564	21,634

22. CURRENT LIABILITIES

31-Mar-22	31-Mar-23
£000	£000
661 Benefits payable	818
4,915 Other creditor	4,977
5,576	5,795

23. ADDITIONAL VOLUNTARY CONTRIBUTIONS

31-Mar-22	31-Mar-23
£000	£000
5,444 Prudential	5,234
645 Standard Life	545
6,089	5,779

Total contributions of £829k (2021-22: £148k) were paid directly to Prudential during the year. Total contributions of £14k (2021-22: £7k) were paid directly to Standard Life during the year.

24. AGENCY SERVICES

Agency Services represent activities administered by the Fund on behalf of scheme employers which are not included within the Fund Account but are provided as a service and are fully reclaimed from the employer bodies.

31-Mar-22	31-Mar-23
£000	£000
2,248 Unfunded pensions	2,233
2,248	2,233

Notes to the Pension Fund Accounts (continued)

25. RELATED PARTIES TRANSACTIONS

West Northamptonshire Council

The Northamptonshire Pension Fund is administered by West Northamptonshire Council. Consequently, there is a strong relationship between the Council and the Fund. The Council incurred costs of £2.6m (2021-22: £2.2m) in relation to the administration of the Fund and was subsequently reimbursed by the Fund for these expenses.

The Council is also the single largest employer of members of the Pension Fund and contributed £27.9m of employer's contributions to the Fund in 2022-23 (2021-22: £23.6m). At 31 March 2023 there was £1.5m due to the Fund by the Council (31 March 2022: £1.9k was due to the Fund by the Council).

Governance

The following members of the Pension Fund Committee declared a personal interest due to either being a member of the scheme themselves or having a family member in the scheme;

Councillor Lloyd Bunday, Andy Langford, Peter Borley-Cox and Robert Austin.

The following members are on the Board or an employee of an employer body in the Pension Fund;

Councillor Graham Lawman, Peter Borley-Cox, Robert Austin and Paul Wheeler.

Council members have declared their interests in their Register of Members' Interests. Other members of the Pensions Committee are required to declare their interests at each meeting.

25 (a). KEY MANAGEMENT PERSONNEL

The administration of the Fund is provided by West Northamptonshire Council (lead authority) in partnership with Cambridgeshire County Council. The Head of Pensions reports directly to Assistant Director of Finance at West Northamptonshire Council, whose costs are reported in the West Northamptonshire Council statement of accounts. Other key personnel include the Section 151 Officer.

31-Mar-22	31-Mar-23
£000	£000
56 Short-term benefits	59
3 Post-employment benefits	-201
59	-142

Post-employment benefits to 31 March 2022 are based on a roll forward from the 2019 valuation. The post employment benefits to 31 March 2023 are based on a roll forward from the 2022 valuation, this "step change" can lead to a sizable remeasurement to the obligations. For more information see Note 19 and 20.

26. CONTINGENT LIABILITIES AND CONTRACTUAL COMMITMENTS

Outstanding capital commitments at 31 March 2023 totalled £155.0m (31 March 2022: £181.4m).

These commitments relate to outstanding call payments due on unquoted limited partnership funds held in the private equity and infrastructure parts of the portfolio. The amounts 'called' by these funds are irregular in both size and timing over a period of between three and fifteen years from the date of each original commitment.

27. CONTINGENT ASSETS

Twelve admitted body employers in the Northamptonshire Fund hold insurance bonds to guard against the possibility of being unable to meet their pension obligations. These bonds are drawn in favour of the Pension Fund and payment will only be triggered in the event of employer default.

Notes to the Pension Fund Accounts (continued)

28. ASSET POOLING

The Northamptonshire Pension Fund has joined with ten other Local Government Pension Schemes (LGPS) Administering Authorities to form the ACCESS (A Collaboration of Central, Eastern and Southern Shires) Pool. The other members of the ACCESS Pool are:

Cambridgeshire, East Sussex, Essex, Hampshire, Hertfordshire, Isle of Wight, Kent, Norfolk, Suffolk and West Sussex.

Collectively as at 31st March 2023, the ACCESS Pool has significant scale with assets of £59bn (of which 59% has been pooled) serving 3,459 employers with 1.192 million members including 339,058 pensioners.

The ACCESS Pool is not a legal entity in itself but is governed by the Inter Authority Agreement (IAA) signed by each Administering Authority established in 2017. The IAA sets out the terms of reference and constitution of ACCESS.

The formal decision-making body within the ACCESS Pool is the ACCESS Joint Committee. The Joint Committee has been appointed by the 11 Administering Authorities under s102 of the Local Government Act 1972, with delegated authority from the Fund Council of each Administering Authority to exercise specific functions in relation to the Pooling of Pension Fund assets.

The Joint Committee is responsible for ongoing contract management and budget management for the Pool and is supported by the Section 151 Officers Group, Officer Working Group and the ACCESS Support Unit. More information on the ACCESS pool can be found on their website: [ACCESS Pool](#).

Glossary

ACCRUAL An amount to cover income or spending that belongs to the accounting year, which was outstanding at the accounting date.

ACTUARY An independent company which advises on the assets and liabilities of the Fund with the aim to ensure that the payment of pensions and future benefits are met.

ACS Authorised Contractual Scheme

ADMITTED BODIES Voluntary and charitable bodies whose staff can become members of the Local Government Pension Scheme subject to certain terms and conditions and other organisations to whom Local Government employees have been transferred under the outsourcing of Local Government services.

AJC ACCESS Join Governance Committee

BOND Security issued by a corporate or government body borrowing in the capital markets. Bonds promise to pay interest (coupons) during the life of the bond plus the principal sum borrowed on the redemption date. Bonds may be secured over assets of the firm or be unsecured.

CASH EQUIVALENTS Assets which are readily convertible into cash.

CIPFA Chartered Institute of Public Finance and Accountancy

COMMUTATION Giving up part or all of the pension payable from retirement in exchange for an immediate lump sum. Commutation factors (usually calculated by the Fund Actuary) are used to determine the amount of pension which needs to be given up in order to provide the lump sum.

CONTINGENT ASSETS AND LIABILITIES Are assets and liabilities that may or may not be incurred depending on the outcome of a future event.

CONVERTIBLE Unsecured loan stock (bond) which converts into equity of the issuing company. The UK Government also issues convertible gilts

which convert into other government stock.

COUPON The regular payment made on bonds.

CURRENT ASSETS Short-term assets such as inventories, receivables and bank balances.

CURRENT LIABILITIES Amounts owed which are due to be settled in less than one year, such as bank overdrafts and money owed to suppliers.

CUSTODIAN An external body responsible for ensuring Fund assets are registered in the name of the Fund, managing the settlement of trades entered into by the Fund, collecting income arising on Fund assets and reporting transactions and values to the Fund on a regular basis.

DEFICIT An outcome as a result of taking away all expenses from income. Additionally, the Fund is in deficit when the liabilities are larger than assets.

DERIVATIVE A financial instrument derived from a security, currency or commodity, or an index indicator representing any of these, the price of which will move in a direct relationship to the price of the underlying instrument. Derivatives can be used for a number of purposes - including insuring against price movements (hedging), increasing exposure to price movements for speculation or getting access to otherwise hard to trade assets or markets.

DIVIDEND The distribution of profits by a company to its shareholders. The dividend may be passed or cut if profits fall. [See also Equities]

EQUITIES Shares representing the capital of a company issued to shareholders usually with voting rights on the way the company runs the business. Equity holders rank last in the event of the winding up of a company.

Glossary (continued)

FINANCIAL INSTRUMENTS Contracts which give rise to a financial asset of one entity and a financial liability or equity instrument of another.

FUTURES Instruments which give a buyer the right to purchase a commodity at a future date.

GMP Guaranteed Minimum Pension

HEDGE To protect a fund from a fall in prices. This is usually accomplished by the selling of futures.

IAS International Accounting Standards

IAS19 outlines the accounting requirements for employee benefits, including short-term benefits, post-employment benefits such as retirement benefits, other long-term benefits and termination benefits.

IDRP Internal Dispute Resolution Procedures

INDEX LINKED Stock whose value is related directly to an index, usually the Retail Price Index and therefore provides a hedge against inflation.

INTEREST YIELD The annual coupon on a bond divided by the price of a bond which is quoted without accrued interest.

INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS) Accounting Standards, Interpretations and the Framework adopted by the International Accounting Standards Board (IASB).

ISC Investments Sub-Committee

LOAN STOCK Unsecured bonds, which may be convertible if they have a warrant attached.

LPB Local Pension Board.

PENSION STRAIN Charges to employers to cover discretionary early retirement costs, which are the responsibility of the employer, recovered in the first year of retirement in full.

PLSA Pensions and Lifetime Savings Association.

PORTFOLIO A collection of investments. This can refer to the investments managed by a particular Investment Manager, or to describe the whole Fund's investments.

RELATED PARTY A person or an organisation which has influence over another person or organisation.

SCHEDULED BODIES Local Authorities and similar bodies whose staff are entitled automatically to become members of the local Authority Pension Fund.

STOCK Shares (e.g. Common stock). However, UK Gilts are more correctly described as stock.

SURPLUS An outcome as a result of taking away all expenses from income. Additionally, the Fund is in surplus when the assets are larger than liabilities.

TRANSFER VALUES Sums which are paid either to or received from other pension schemes and relate to new and former members' periods of pensionable employment with employers participating in the scheme.

TREASURY MANAGEMENT A process which plans, organises and controls cash, investments and borrowings so as to optimise interest and currency flows, and minimise the cost of funds.

UNDECIDED LEAVER A member who has left employment but their pension benefits have yet to be calculated

UNFUNDED Pension benefits not funded by the Pension Fund. Benefits are fully reclaimed from the employer bodies.

UNIT TRUST An open-ended trust investing in a wide spread of stocks, shares and cash (subject to FSA limits). Investors buy units directly from the Investment manager to participate in a diversified portfolio. Unit trusts are subject to FSA investment and borrowing regulations.
