## What we do:

We work together to ensure that people in Northamptonshire are safeguarded from harm, and can live their lives independently and free from abuse and neglect.

The work of Safeguarding Adults Boards (SABs) is directed by legislation – the Care Act 2014. The Act sets out the core purpose of the Board ensuring that local safeguarding arrangements are effective and take account of the views of the local community.

In addition to this, Northamptonshire learns and improves as part of its processes and has adopted the East Midlands regional priorities for Safeguarding adults.

## Our strategic plan sets out:

- **Our vision** to safeguard people in Northamptonshire; and
- **Our objectives** for the period 2019-21 and outlines our aims and objectives to achieve our vision, and provides direction and continuity for our Delivery Board Action Plan.

The Action Plan will be reviewed on a quarterly basis by the Delivery Board and an update will be provided to Board to highlight progress and any difficulties in achieving the goals within timescale.

## Our vision:

In Northamptonshire our vision for Safeguarding Adults at risk is that we are:

### **'Working together to keep people safe'**

- We believe that people should be able to live a life that is free from harm, communities have a culture that does not tolerate abuse, that Northamptonshire is a place where we work together to prevent abuse, and where people know what to do when abuse happens.
- To make this vision a reality, everyone needs to work together as a partnership involving the person at risk, their families and all the agencies across the partnership. Our strategic priorities drive this joint working and partnership.

## Our core functions:

### The Board has the following core functions:

- To publish a Strategic Plan and an Annual Report in each financial year in accordance with the duties outlined within the Care Act 2014; and
- To undertake Safeguarding Adult Reviews (SARs) and ensure that any learning is disseminated and implemented across relevant agencies.

## Six key principles and what this means to people in Northamptonshire:

Each one of the key principles forms a 'strategic outcome' in our strategy.

|    | Key Principle          | Description   | What this means to the people who live in Northamptonshire  |
|----|------------------------|---|---|
| 1. | <b>Empowerment</b>     | People being supported and encouraged to make their own decisions and informed consent.   | "I am asked what I want as the outcomes from the safeguarding process and these directly inform what happens."  |
| 2. | <b>Prevention</b>      | It is better to take action before harm occurs  | "I receive clear and simple information about what abuse is, how to recognise the signs and what I can do to seek help."  |
| 3. | <b>Proportionality</b> | The least intrusive response appropriate to the risk presented.   | "I am sure that the professionals will work in my best interests, as I see them and they will only get involved as much as needed."   |
| 4. | <b>Protection</b>      | Support and representation for those in greatest need   | "I get help and support to report abuse and neglect. I get help so that I am able to take part in the safeguarding process to the extent to which I want."  |
| 5. | <b>Partnership</b>     | Local solutions through services working with their communities. Communities have a part to play in preventing, detecting and reporting neglect and abuse | "I know that staff treat any personal and sensitive information in confidence, only sharing what is helpful and necessary. I am confident that professionals will work together and with me to get the best result for me." |
| 6. | <b>Accountability</b>  | Accountability and transparency in delivering safeguarding.   | "I understand the role of everyone involved in my life and so do they."   |

<sup>1</sup> **Making Safeguarding Personal** (MSP) is a sector led initiative which aims to develop an outcomes focus to safeguarding work, and a range of responses to support people to improve or resolve their circumstances. It is about engaging with people about the outcomes they want at the beginning and middle of working with them, and then ascertaining the extent to which those outcomes were realised at the end.
