Discharge	und 2022	2-23 Fiindi	ng Template

2. Cover

Version 1.0.0

Please Note:

- You are reminded that much of the data in this template, to which you have privileged access, is management information only and is not in the public domain. It is not to be shared more widely than is necessary to complete the return.
- Please prevent inappropriate use by treating this information as restricted, refrain from passing information on to others and use it only for the purposes for which it is provided. Any accidental or wrongful release should be reported immediately and may lead to an inquiry. Wrongful release includes indications of the content, including such descriptions as "favourable" or "unfavourable".
- This template has been produced for areas to confirm how the additional funding to support discharge from hospital and bolster the social care workforce will be spent in each area. The government has also produced guidance on the conditions attached tothis funding, that you should ensure has been followed.
- This template collects detailed data on how the funding allocated to each area will be spent. The portion of the funding that is allocated via Integrated Care Boards (ICBs) does not have a centrally set distribution to individual HWBs. ICBs should agree with local authority partners how this funding will be distributed and confirm this distribution in a separate template. The amount pooled into the BCF plan for this HWB from each ICB should also be entered in the expenditure worksheet of this template (cell N31) (The use of all funding should be agreed in each HWB area between health and social care partners.

Health and Wellbeing Board:	West Northamptonshire
Completed by:	Anna Earnshaw
E-mail:	anna.earnshaw@westnorthants.gov.uk
Contact number:	7747455389

Please confirm that the planned use of the funding has been agreed between the local authority and the ICB and indicate who is signing off the plan for submission on behalf of the HWB (delegated authority is also accepted):

Scheme types and guidance

This guidance should be read alongside the addendum to the 2022-23 BCF Policy Framework and Planning Requirements.

The scheme types below are based on the BCF scheme types in main BCF plans, but have been amended to reflect the scope of the funding. Additional scheme types have been added that relate to activity to retain or recruit social care workforce. The most appropriate description should be chosen for each scheme. There is an option to select other as a main scheme type. That option should only be used when none of the specific categories are appropriate.

The conditions for use of the funding (as set out in the addendum to the 2022-23 BCF Policy Framework and Planning Requirements) confirm expectations for use of this funding. Funding should be pooled into local BCF agreements as an addition to existing section 75 arrangements. Local areas should ensure that there is agreement between ICBs and local government on the planned spend.

The relevant Area of Spend (Social Care/Primary Care/Community Health/Mental Health/Acute Care) should be selected

The expenditure sheet can be used to indicate whether spending is commissioned by the local authority or the ICB.

This funding is being allocated via:

- a grant to local government (40% of the fund)
- an allocation to ICBs (60% of the fund)

Both elements of funding should be pooled into local BCF section 75 agreements.

Once the HWB is selected on the cover sheet, the local authority allocation will pre populate on the expenditure sheet. The names of all ICBs that contribute to the HWB's BCF pool will also appear on the expenditure sheet. The amount that each ICB will pool into each HWB's BCF must be specified. ICBs are required to submit a separate template that confirms the distribution of the funding across HWBs in their system. (Template to be circulated separately).

When completing the expenditure plan, the two elements of funding that is being used for each line of spend, should be selected. The funding will be paid in two tranches, with the second tranche dependent on an area submitting a spending plan 4 weeks after allocation of funding. The plan should cover expected use of both tranches of funding. Further reporting is also expected, and this should detail the actual spend over the duration of the fund. (An amended reporting template for fortnightly basis and end of year reporting, will be circulated separately)

Local areas may use up to 1% of their total allocation (LA and ICB) for reasonable administrative costs associated with distributing and reporting on this funding.

For the scheme types listed below, the number of people that will benefit from the increased capacity should be indicated - for example where additional domiciliary care is being purchased with part of the funding, it should be indicated how many more packages of care are expected to be purchased with this funding.

Assistive Technologies and Equipment Home Care or Domiciliary Care Bed Based Intermediate Care Services Reablement in a Person's Own Home Residential Placements
